ABOUT US

Founding partner of C&C Dream Artworks Factory Coşar Kulaksız is a photographer and curator with academic training in the U.S. and Turkey. He has actively contributed to the development of photographic arts in Turkey through national and international roles, including FIAP representation and festival curatorships. His work has been exhibited and awarded globally, and he has curated over 50 exhibitions for museums, institutions, and artists. A member of AICA since 2018, his recent practice explores themes of folklore, mythology, and symbolism.

Founding partner of C&C Dream Artworks Factory Cengiz Tecmen graduated from Southern New Hampshire University Economy Department at 1996, USA. Seasoned professional with over 30 years of experience in management, sales and marketing positions at the largest oil&lubricant international companies downstream headquarters, such as Conoco&Dupont, Jet Petroleum and Shell Oil located at England and USA. As Co-owner of Kalyon Hotels & Travel DMC Tourism Group since 2007, he excels in driving business growth and delivering excellence in the hospitality industry.

C&C DREAM ARTWORKS FACTORY

C&C Dream Artworks Factory brings over 55 years of excellence in bespoke fine art manufacturing and sourcing, serving global hospitality, corporate, retail and healthcare interiors. Rooted deeply in craftsmanship and artistic heritage, we specialize in elevating spaces-luxury hotels, upscale restaurants, hospitals, corporate headquarters, retail venues, and premium residences-with curated artwork that reflects vision, place, and purpose

From our Istanbul-based atelier, we combine creative vision with technical precision-offering tailored solutions from conceptualization to production, in a full suite of art formats: printed artworks, CNC-cut installations, custom sculptures, decorative wall art prints, and large-format bespoke pieces. Our heritage spans seamless collaborations across international flagship properties such as Kempinski Çırağan and Park Plaza Westminster in London-underscoring our global reach and turnaround capacity.

SUSTAINABILITY

Materials & Printing Technology

Eco-friendly inks and substrates; prioritize local sourcing; reduce PVC and solvent-based materials.

Energy & Facility Efficiency

LED lighting and energy efficient machinery.
Transition to LED lighting in the facility.

Waste Management & Circularity

Use minimal, recyclable, or compostable packaging. Recycle paper and card boxes.

Communication & Marketing

Less print-outs, more online presentations and less consumption of in house paper work by automating CRM and job flow via apps.

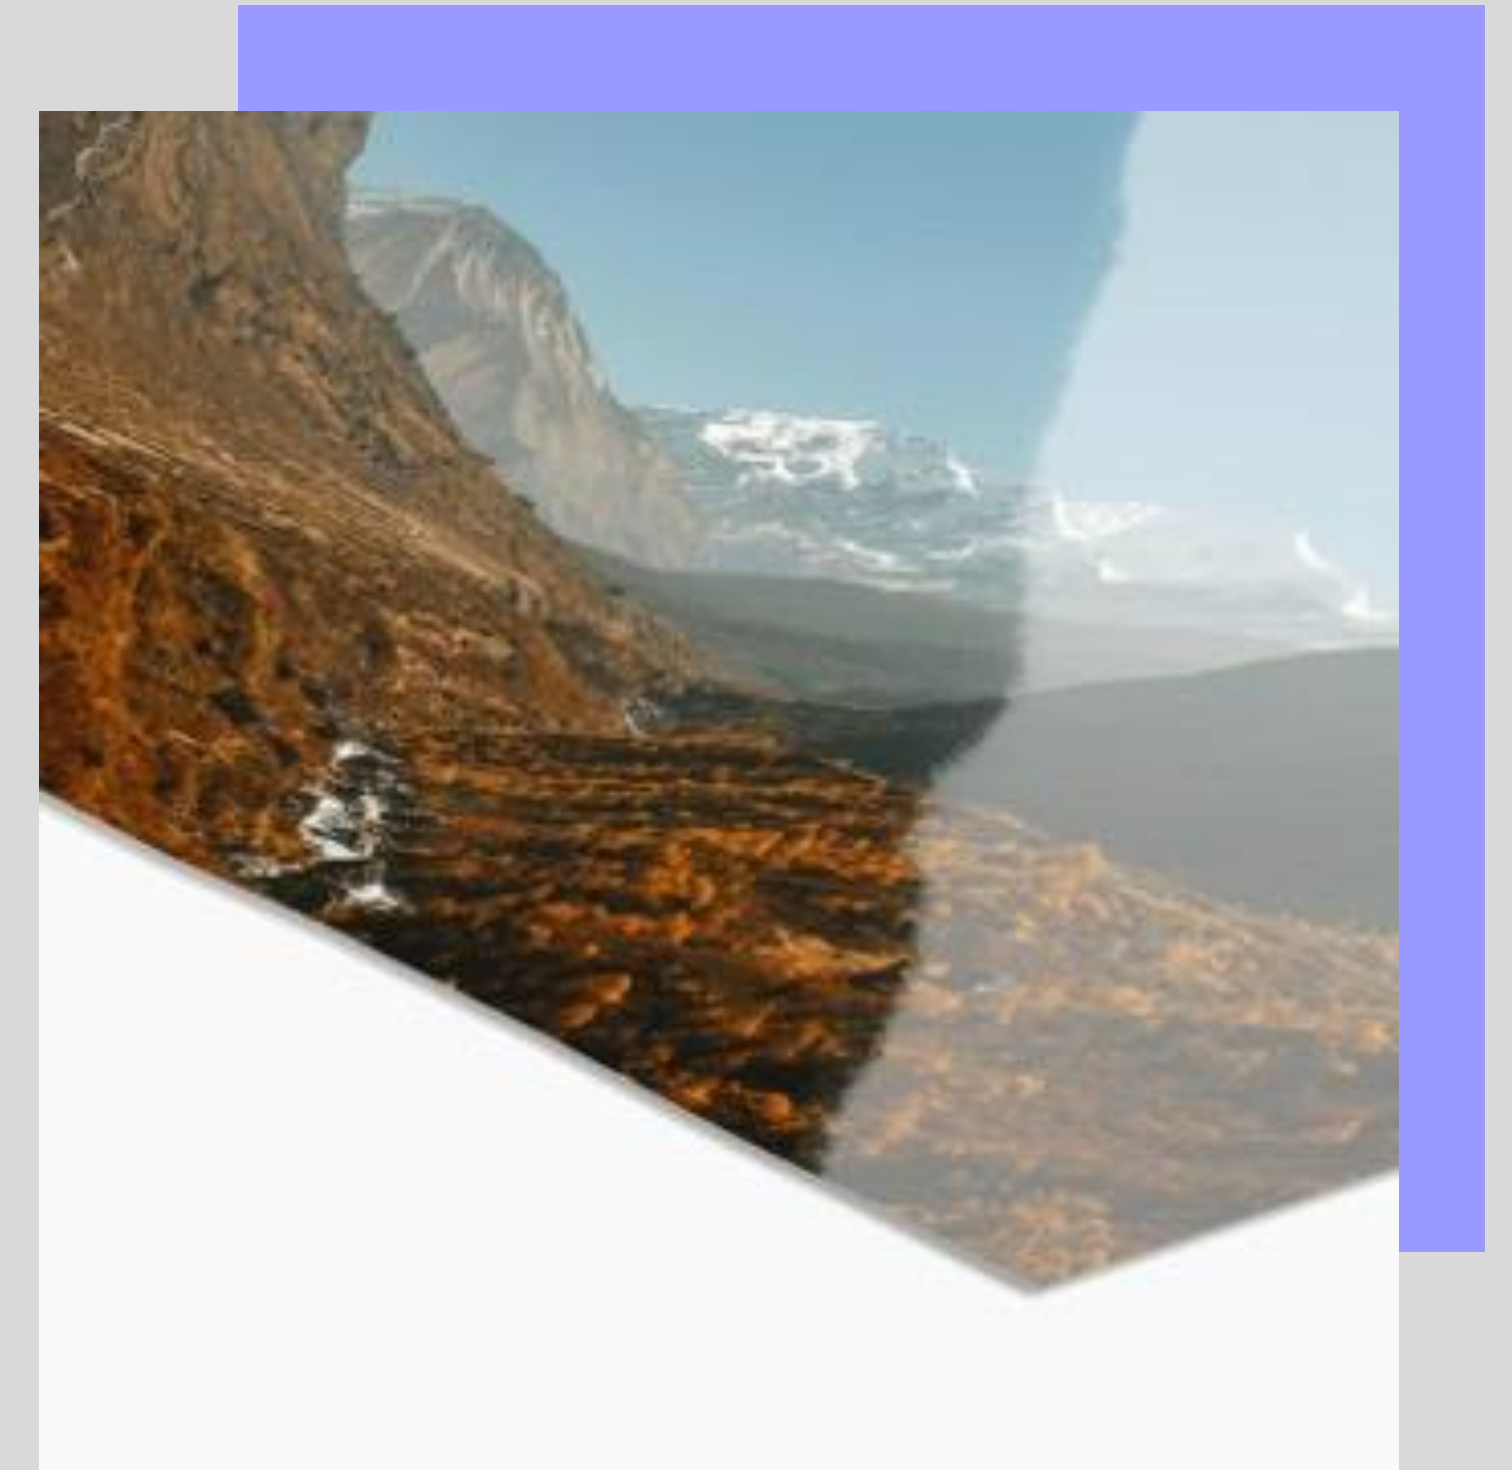

Plant a Tree Programme

Dedicate to plant one tree per m2 print produced in the facilities by donating to TEMA or equivalent NGO's.

PRINTED AND FRAMED ARTWORK PRODUCTION

Professional C-Prints

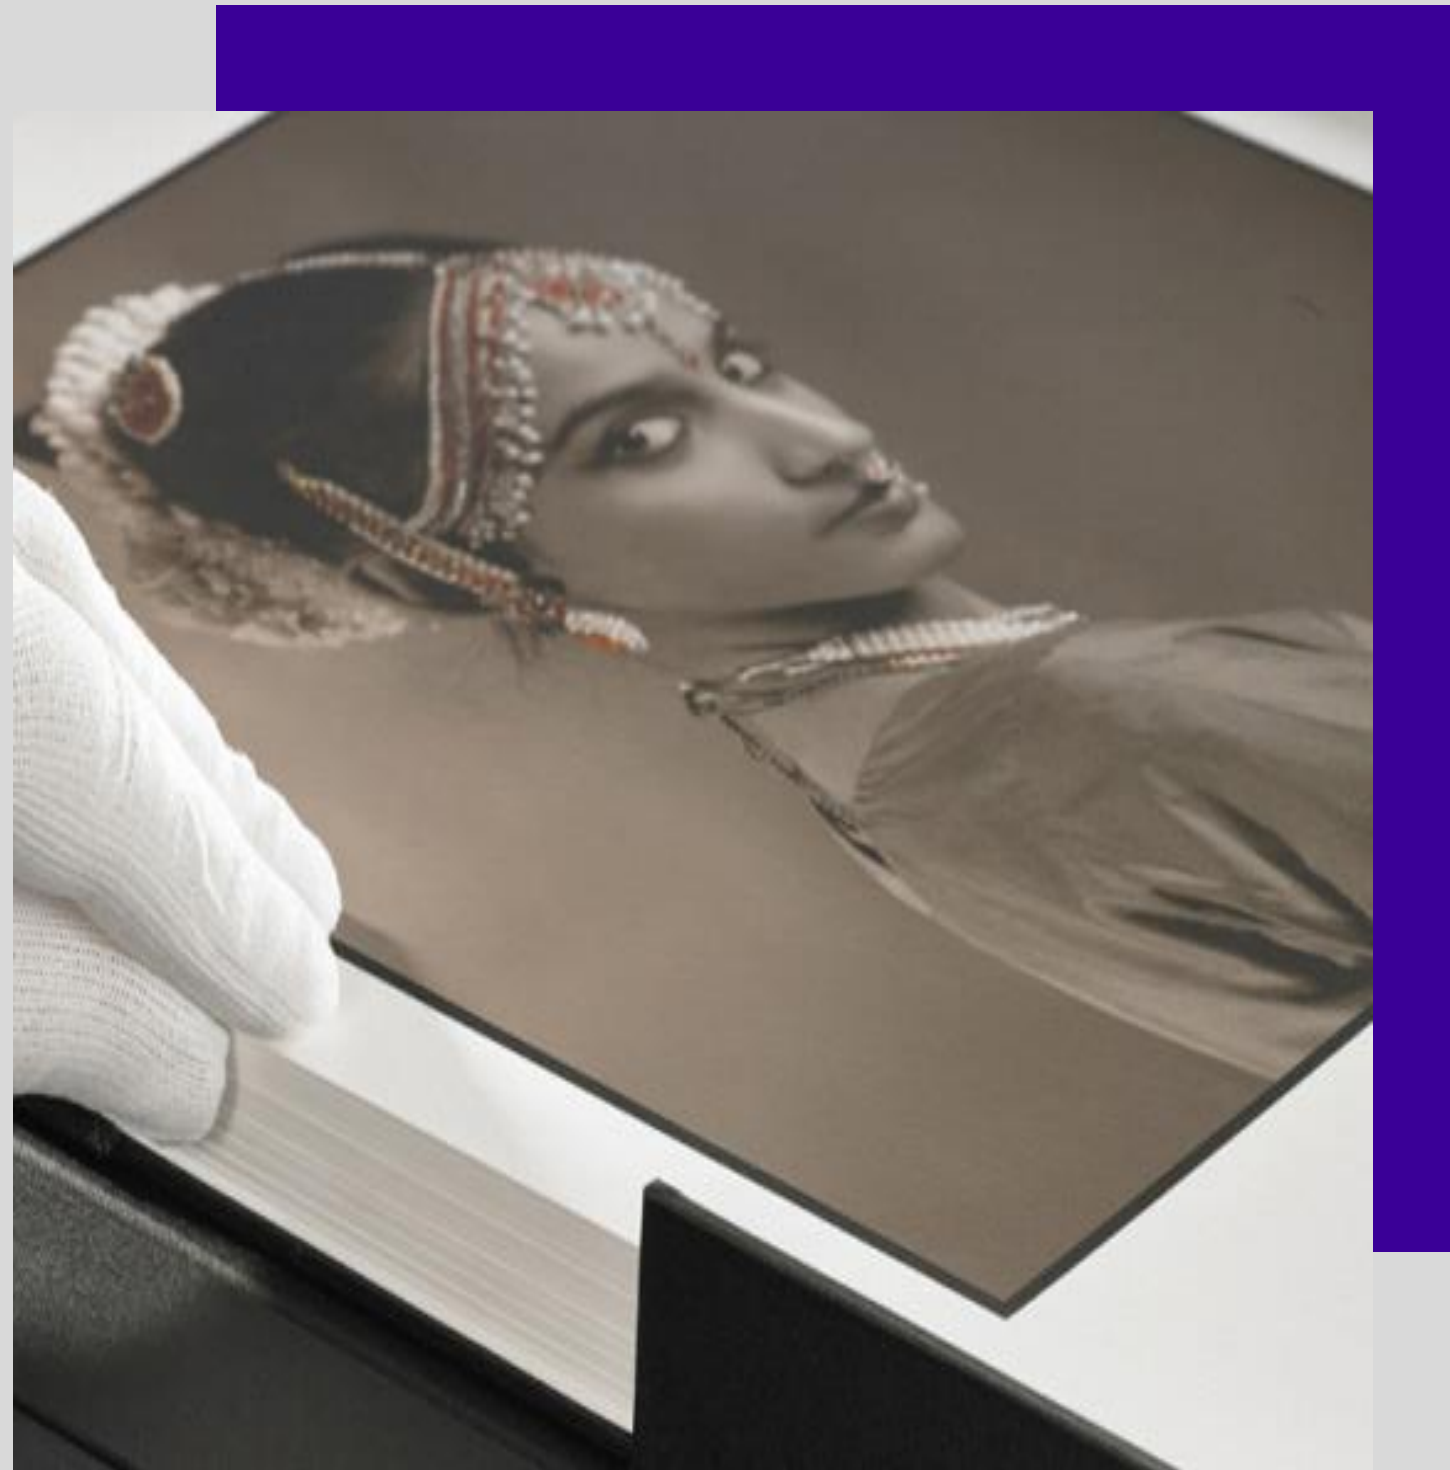

We can produce any photographic image from preparing an exhibition to printing posters with 4000 dpi image resolution, incomparable definition and color quality in our Lambda machine by Durst. Their durability and stability have been proven by experience. Durst are undisputable technology leaders in chemical photographic printing (C-Print, Chromogenic Prints).

PRINTED AND FRAMED ARTWORK PRODUCTION

Professional Fine Art Prints

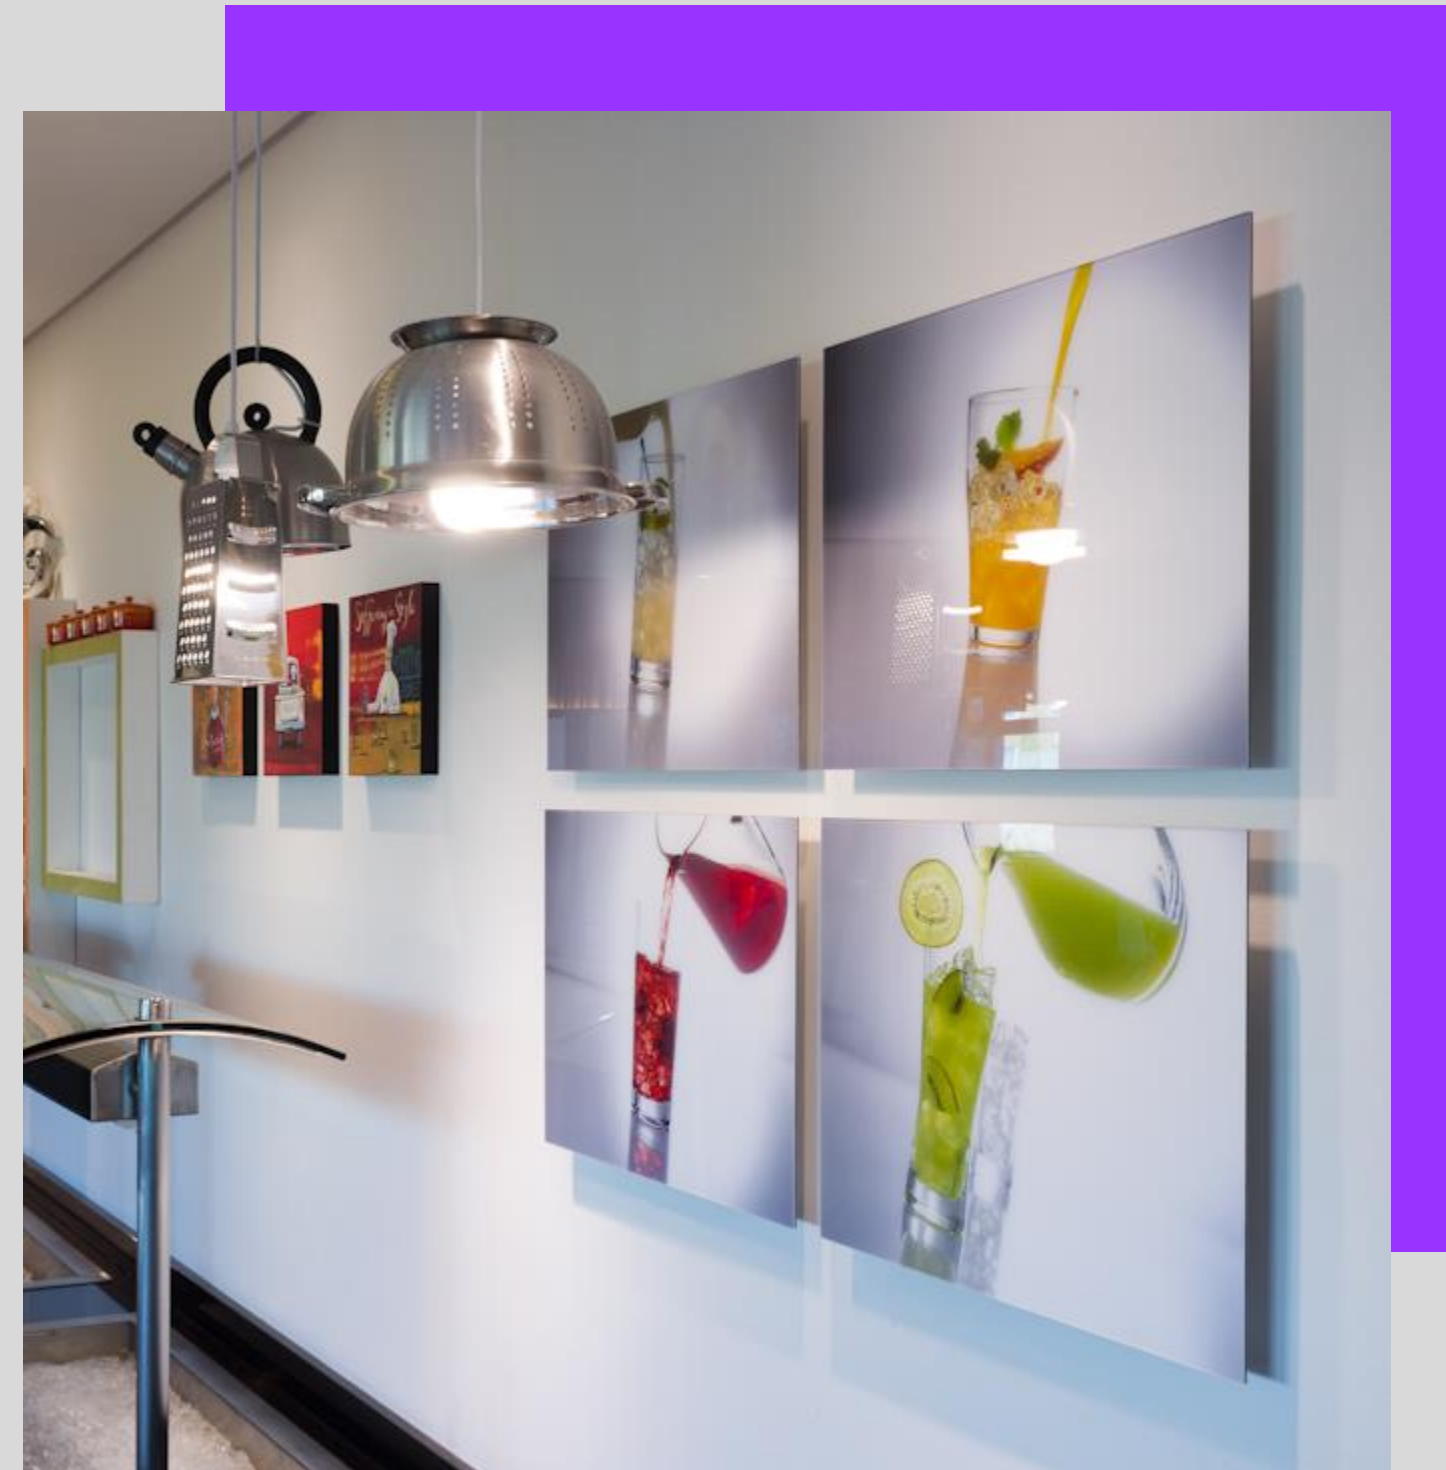

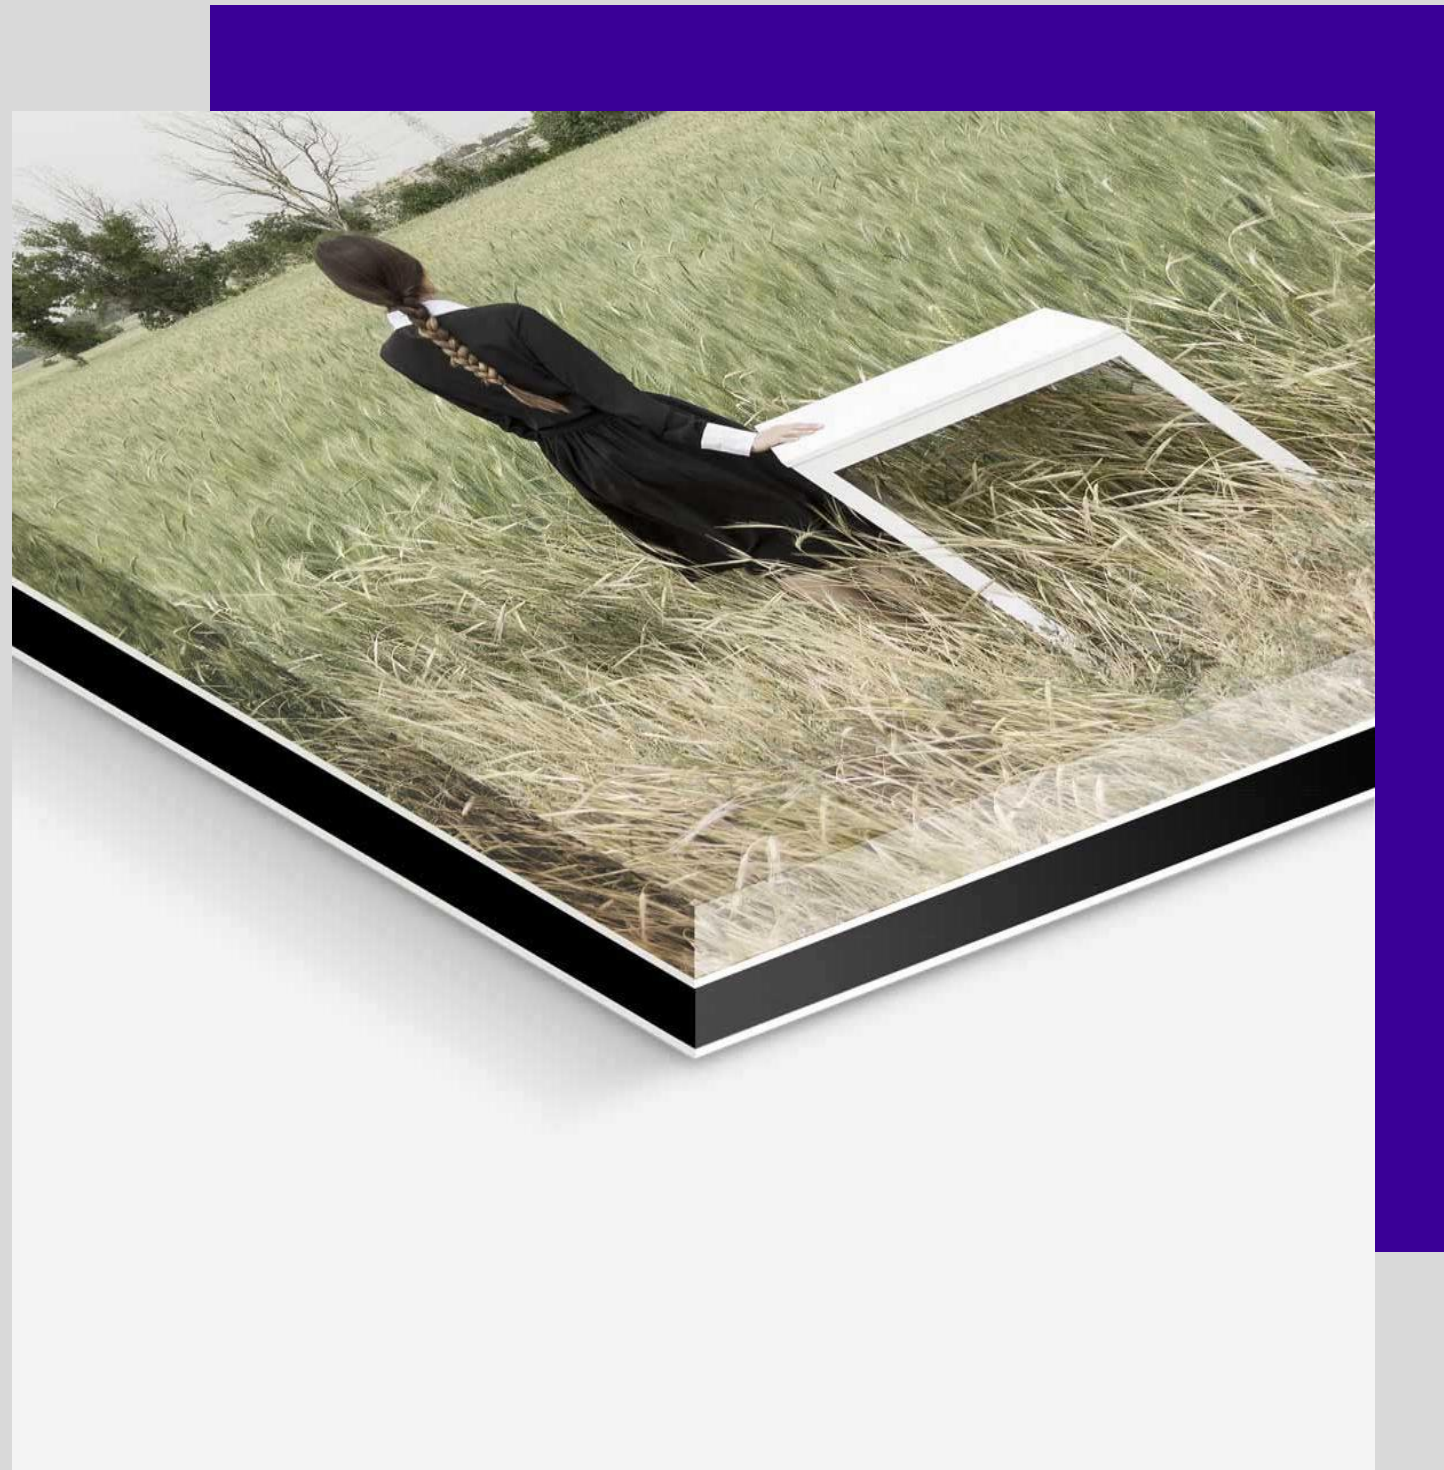

Museum quality, long lasting, durable against fading over a long time, 2500dpi resolution, 11 color pigment inkjet prints. With calibrated screens and fine art papers, we ensure the maximum quality and endurance. We are a Hahnemühle Certified Studio.

PRINTED AND FRAMED ARTWORK PRODUCTION

Acrylic Sandwich

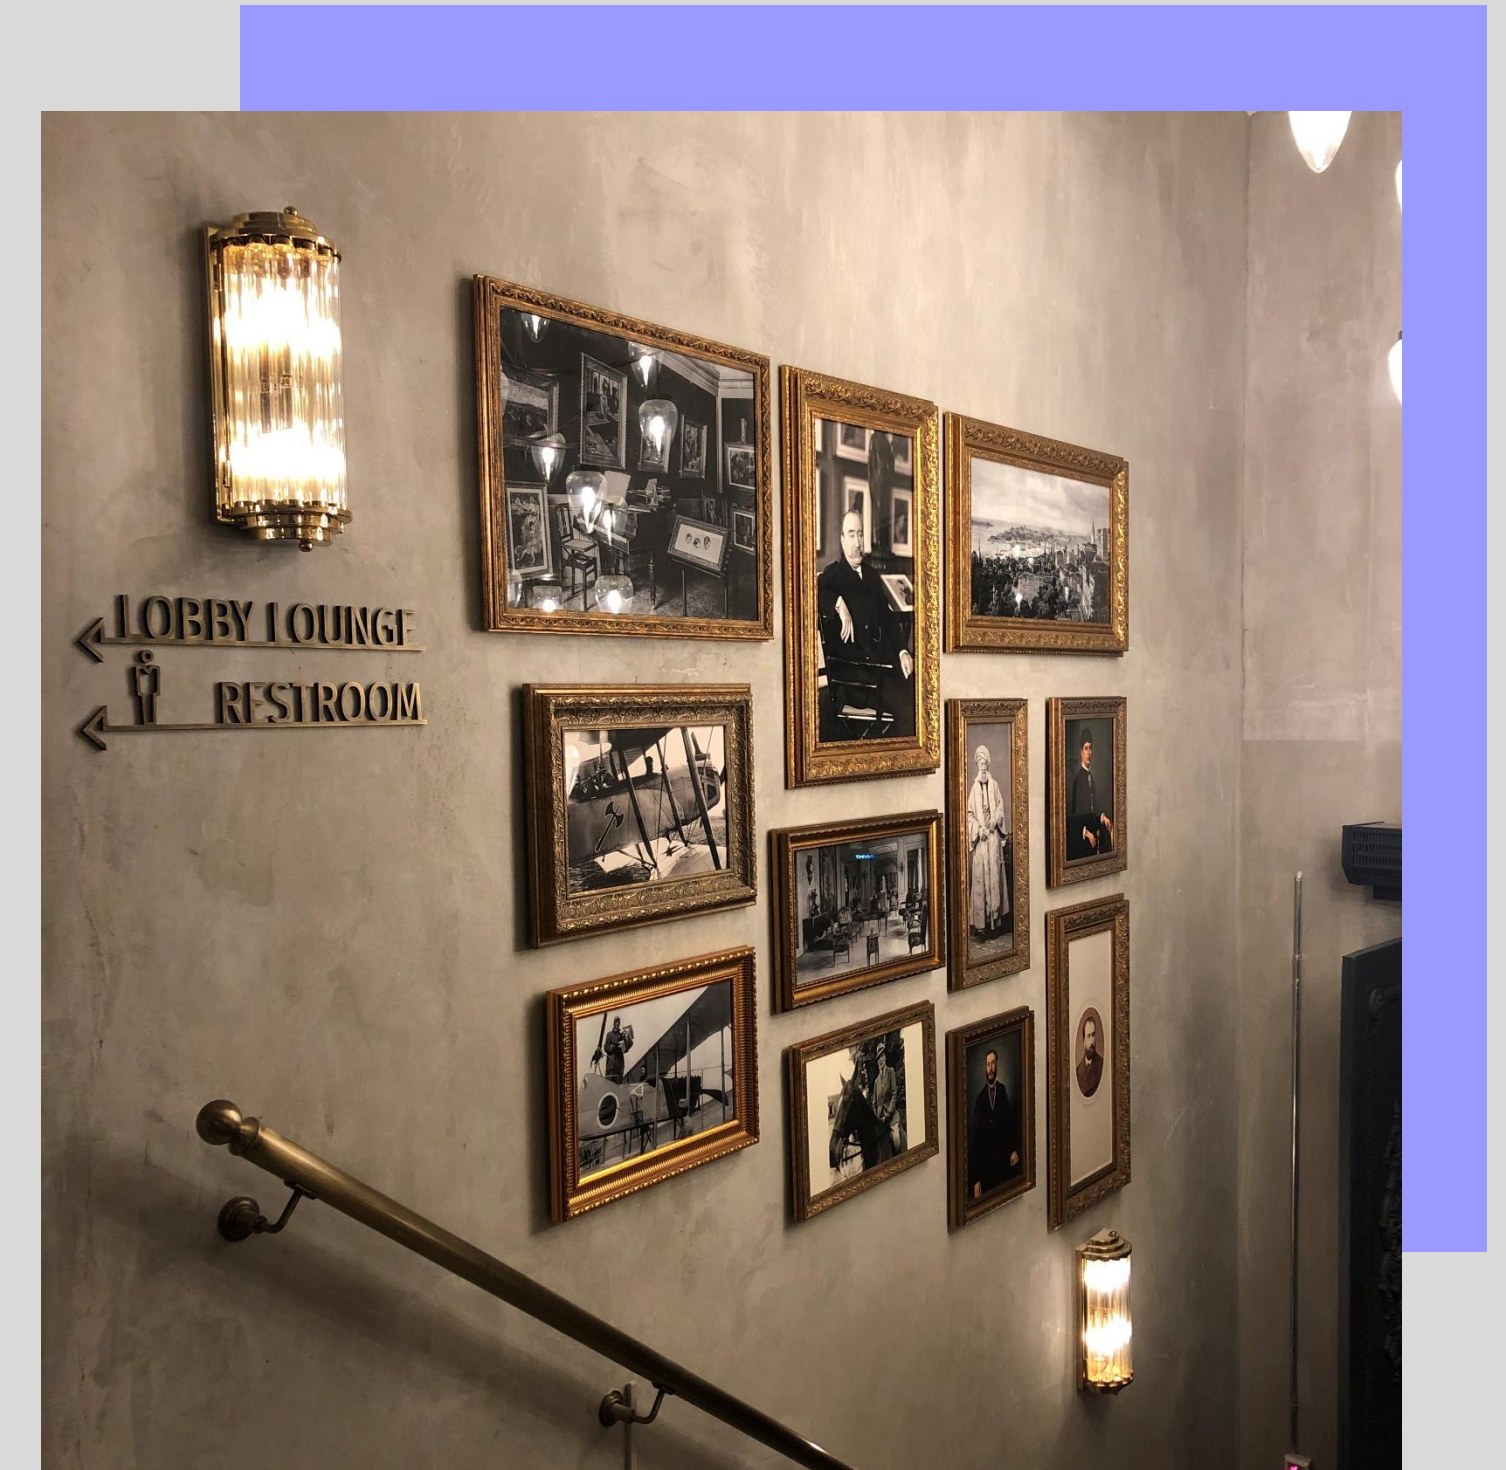

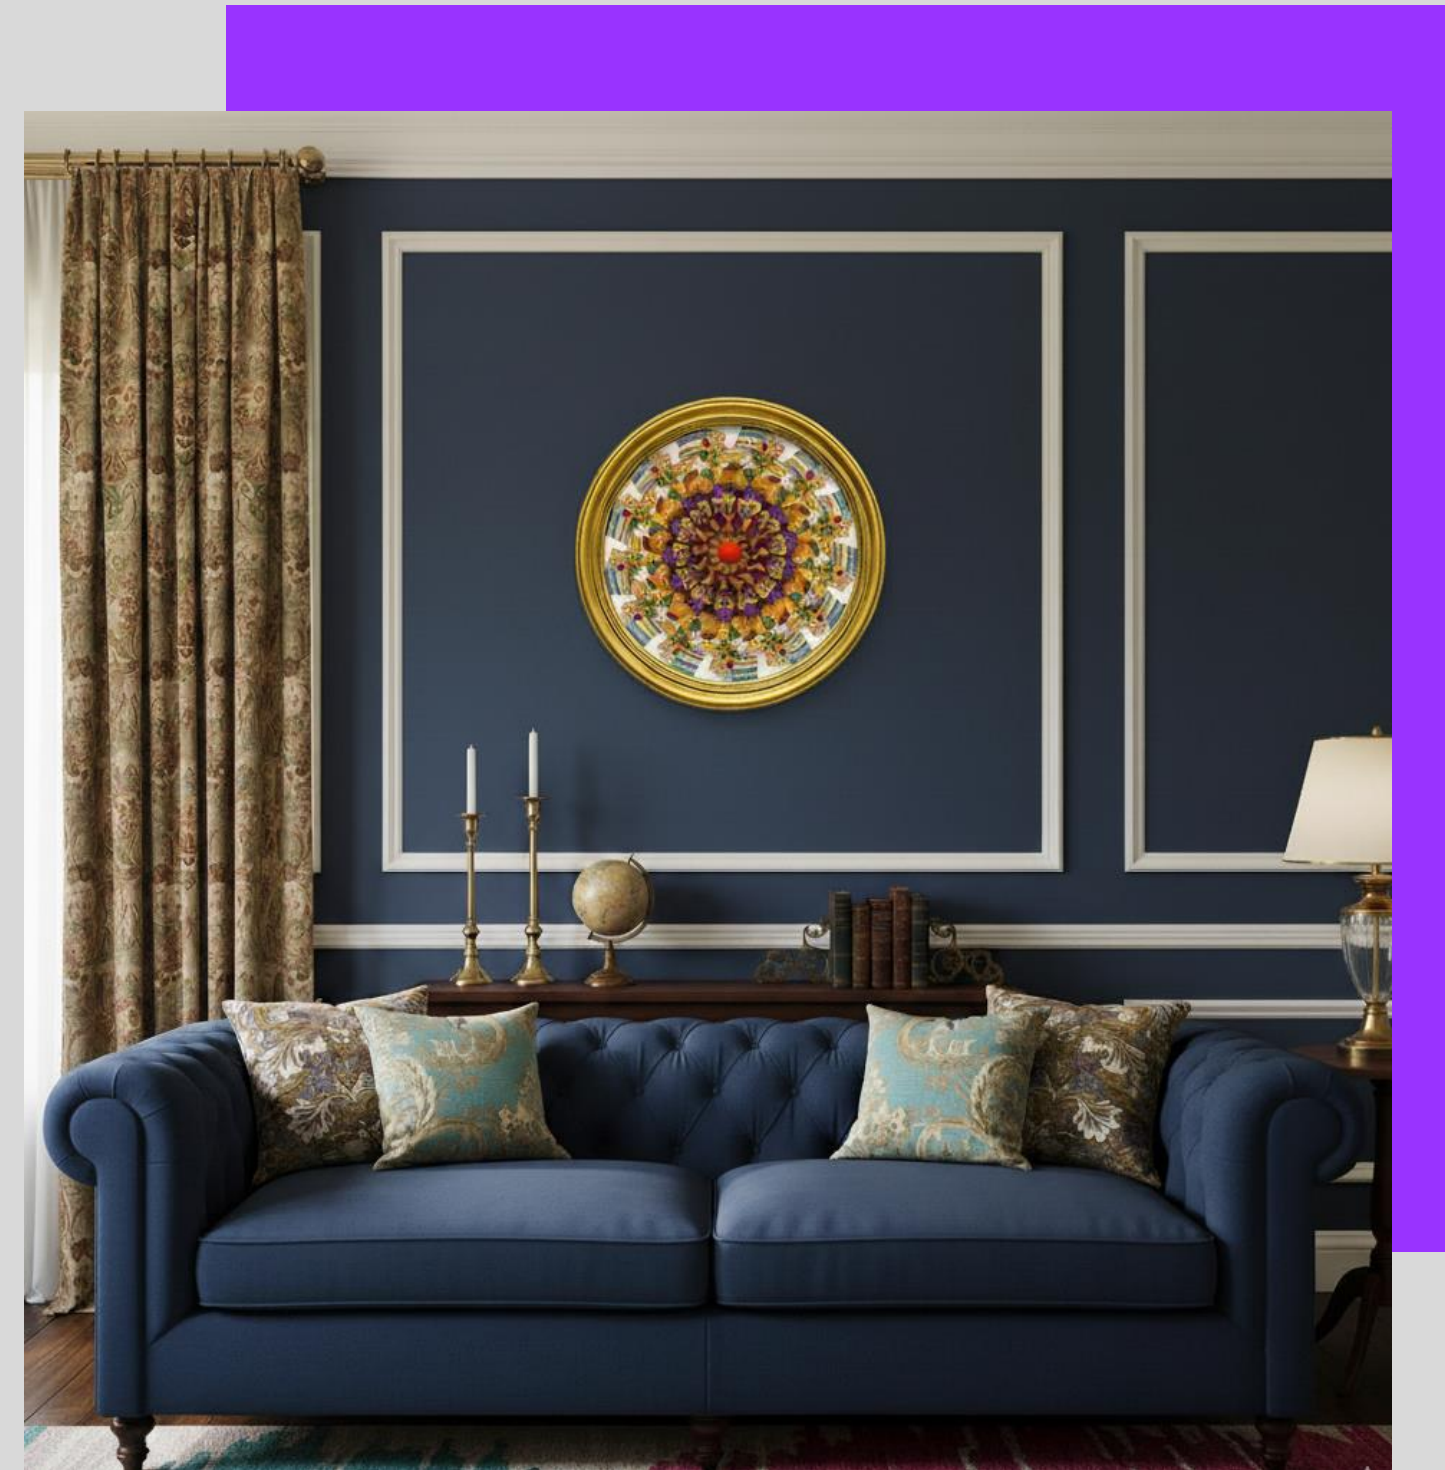

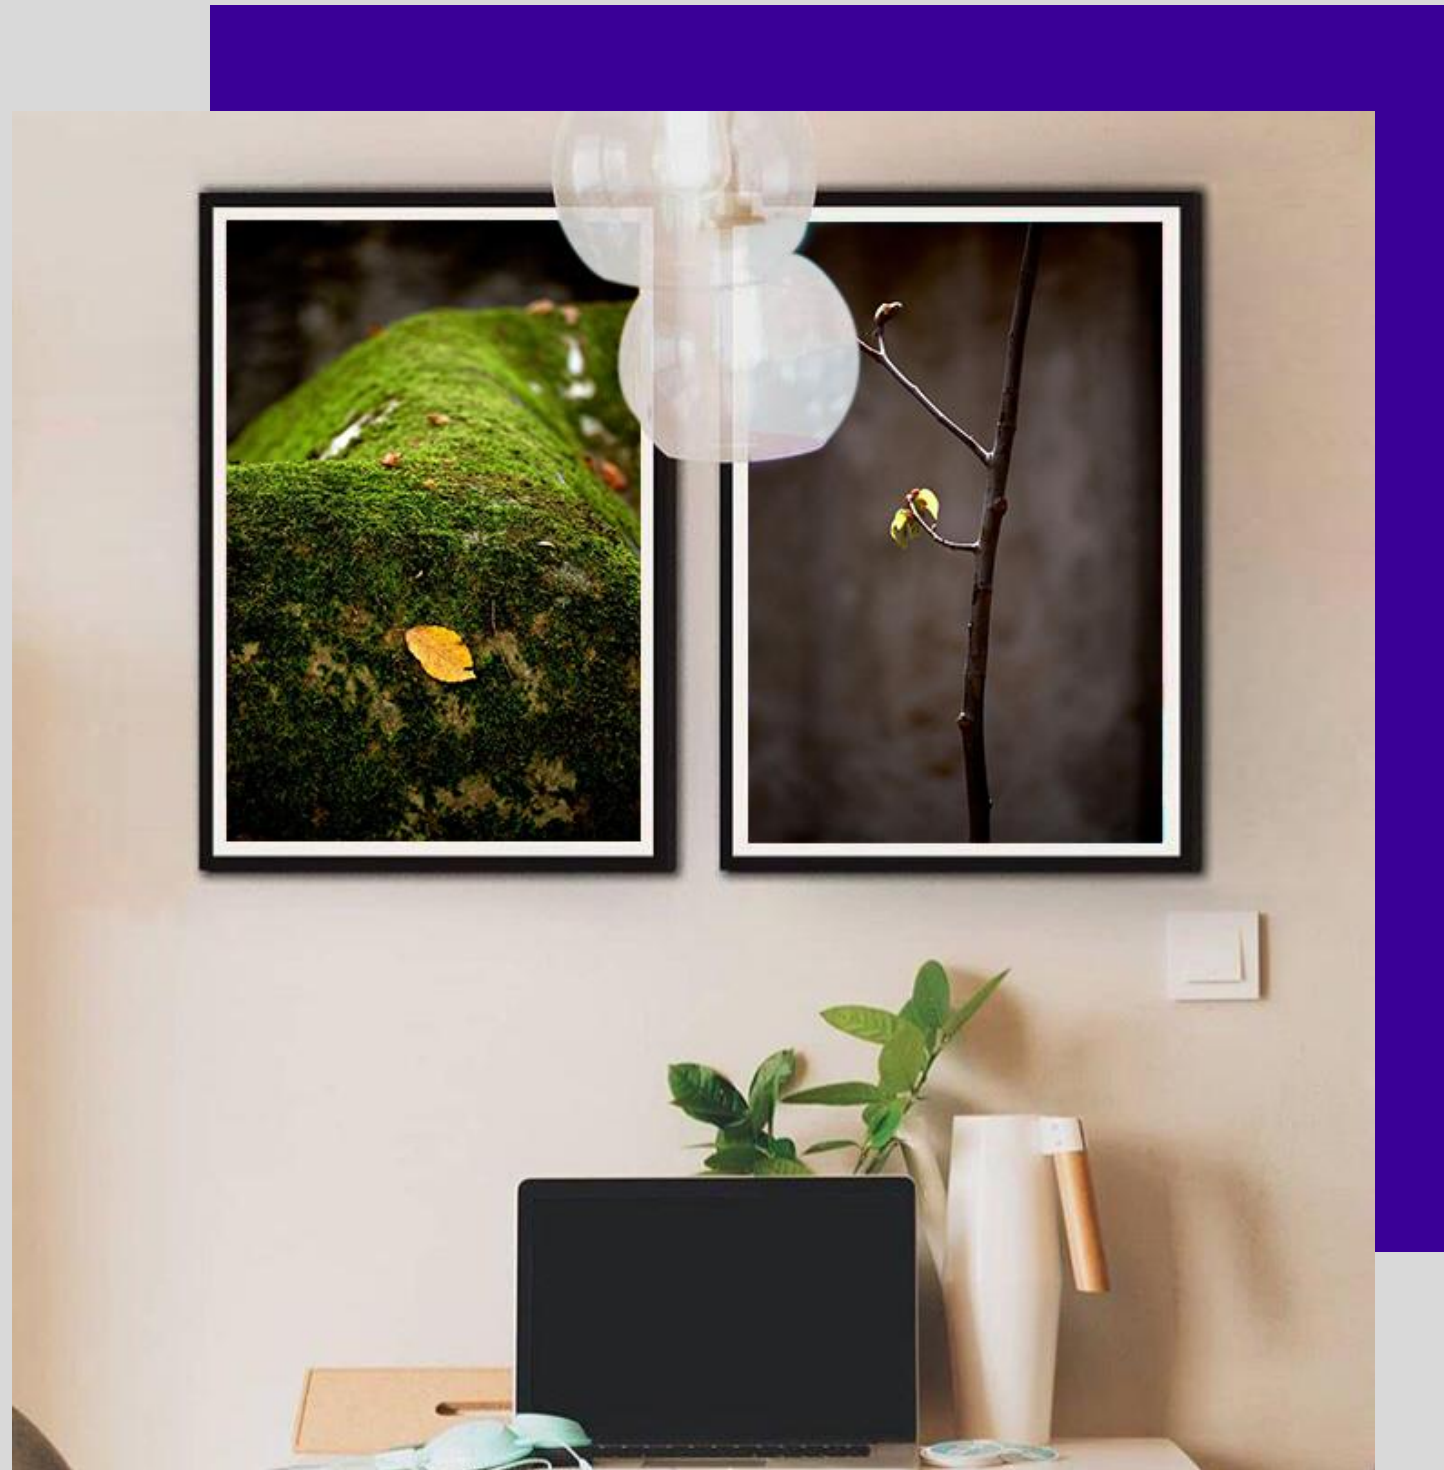

Acrylic and aluminum are the perfect combination for this presentation technique, it adds a contemporary aesthetic to your photos and artwork, thus alleviating its value. The photograph is sandwiched between clear acrylic and aluminum with acid free materials. Maximum durability and aesthetics are ensured.

PRINTED AND FRAMED ARTWORK PRODUCTION

Framing Services

Wooden frames elevate the presentation of fine art and photographic prints, offering a perfect blend of durability, sophistication, and natural beauty. Crafted from high-quality hardwoods such as oak, walnut, or maple, these frames provide a sturdy and timeless border that complements a wide range of styles, from classic to contemporary.

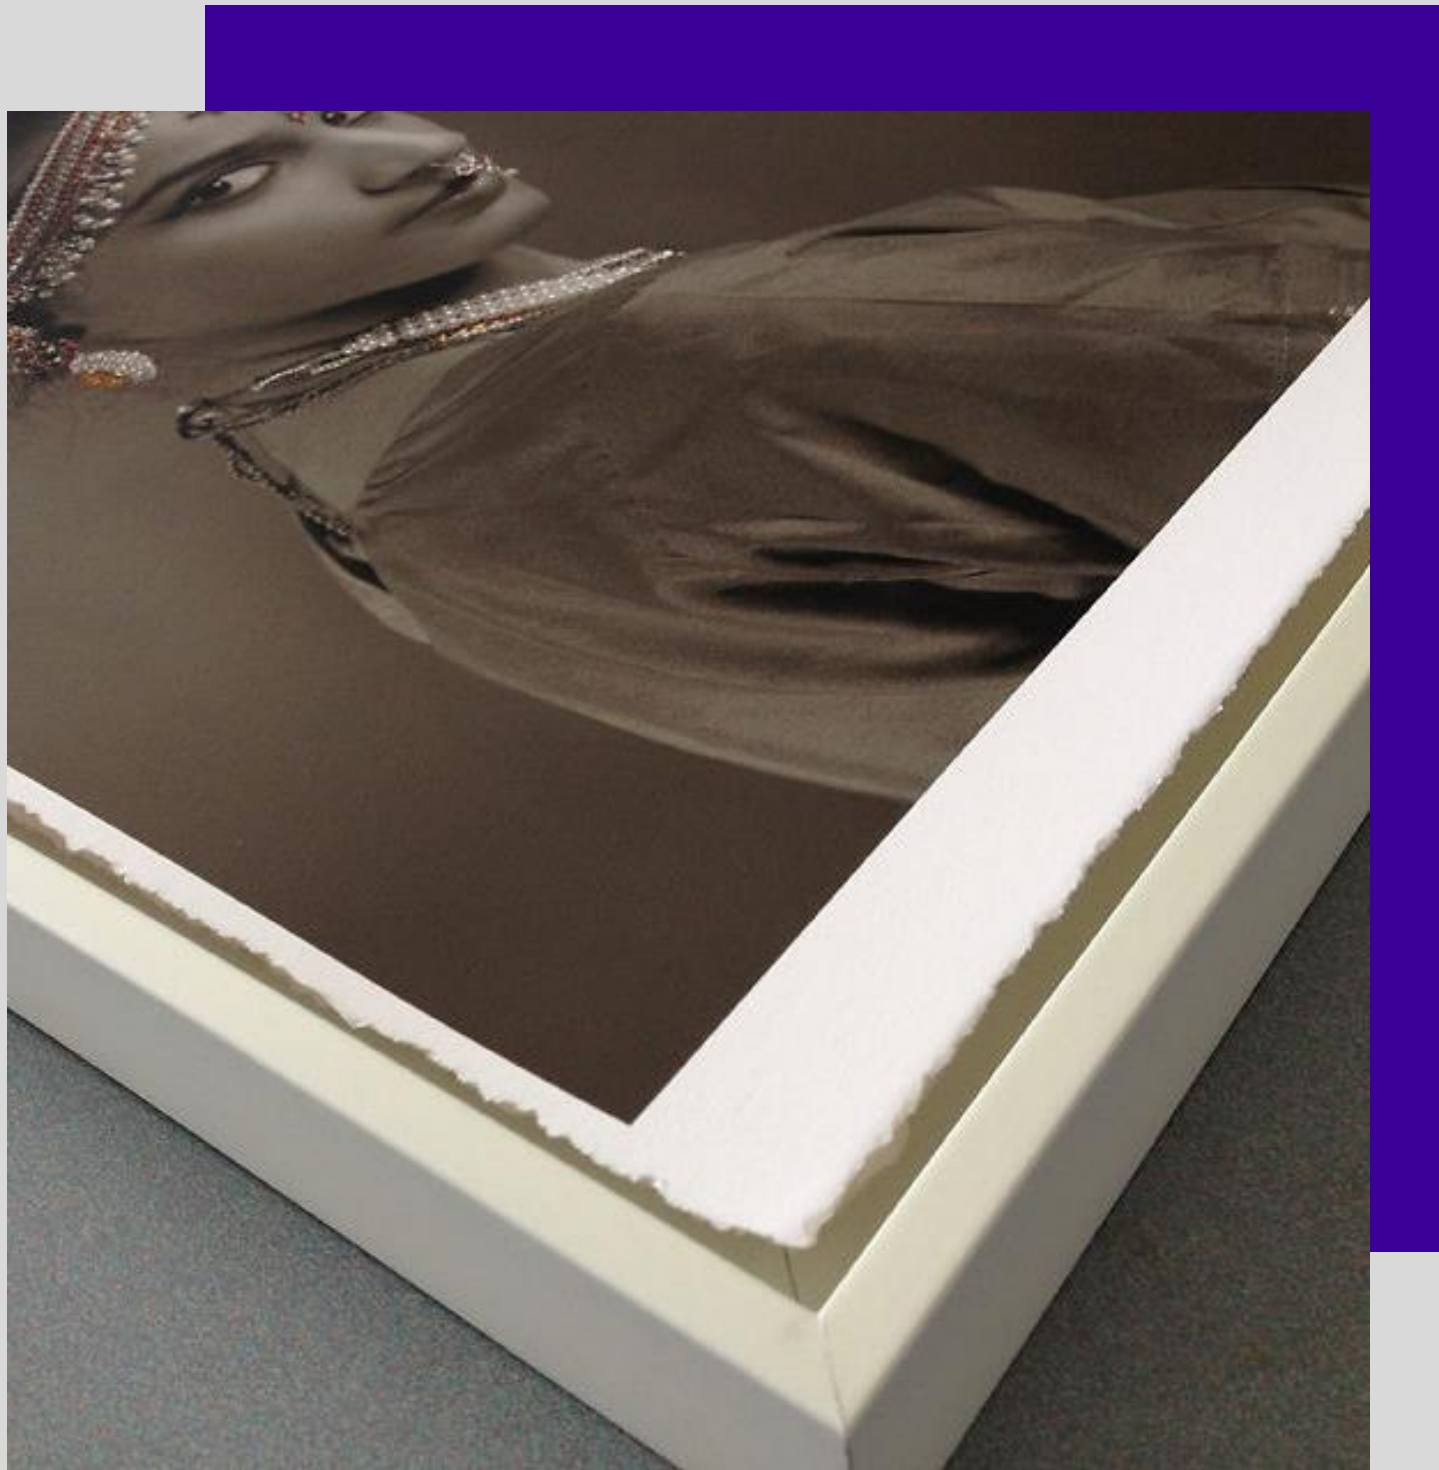

Wooden Frame

PRINTED AND FRAMED ARTWORK PRODUCTION

Framing Services

Floating frames provide a modern, elegant way to showcase fine art and photographic prints, creating the illusion that the artwork is suspended within the frame. Crafted from high-quality materials like wood or metal, these frames feature a subtle gap between the artwork and the frame's edge, adding depth and a contemporary aesthetic.

Floating Frame

PRINTED AND FRAMED ARTWORK PRODUCTION

Framing Services

Artbox frames provide a clean, modern aesthetic ideal for galleries, homes, or commercial spaces. Available in various finishes and customizable sizes, they ensure durability and a polished look, enhancing the visual impact of museum-quality prints while offering robust protection. Artbox framing combines modern design with timeless craftsmanship, making every piece a standout.

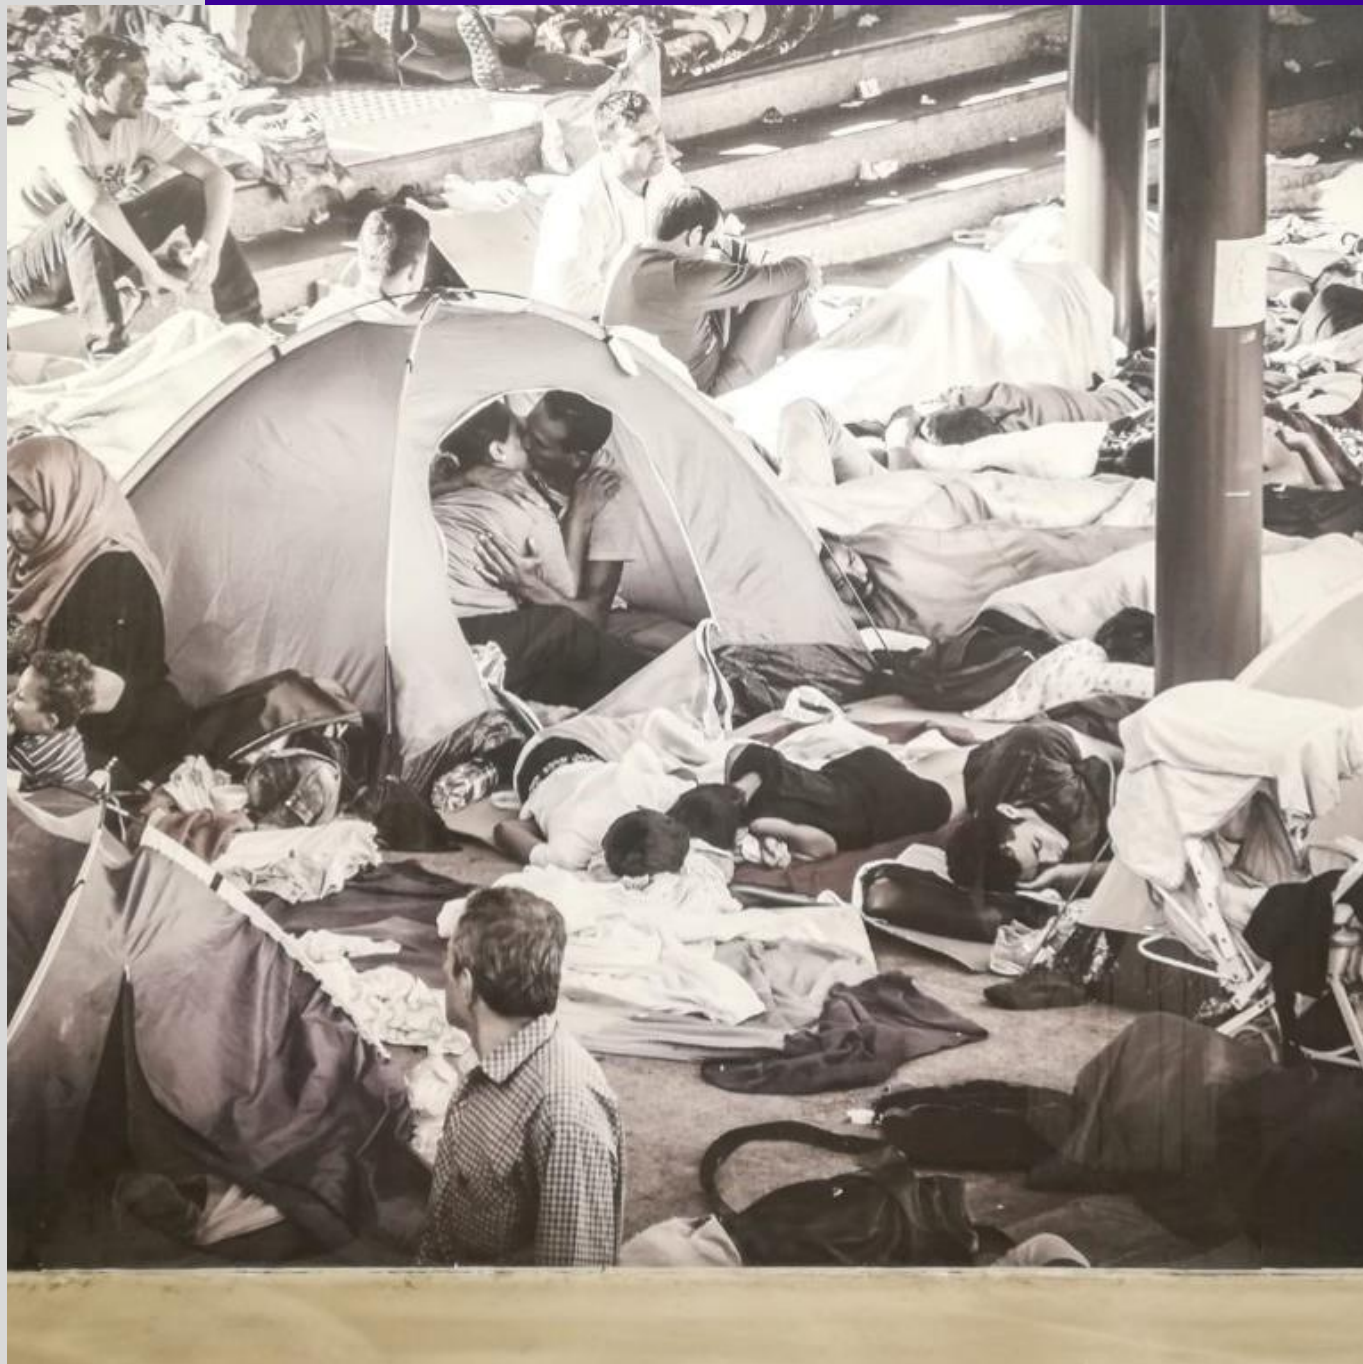

Artbox Frame

PRINTED AND FRAMED ARTWORK PRODUCTION

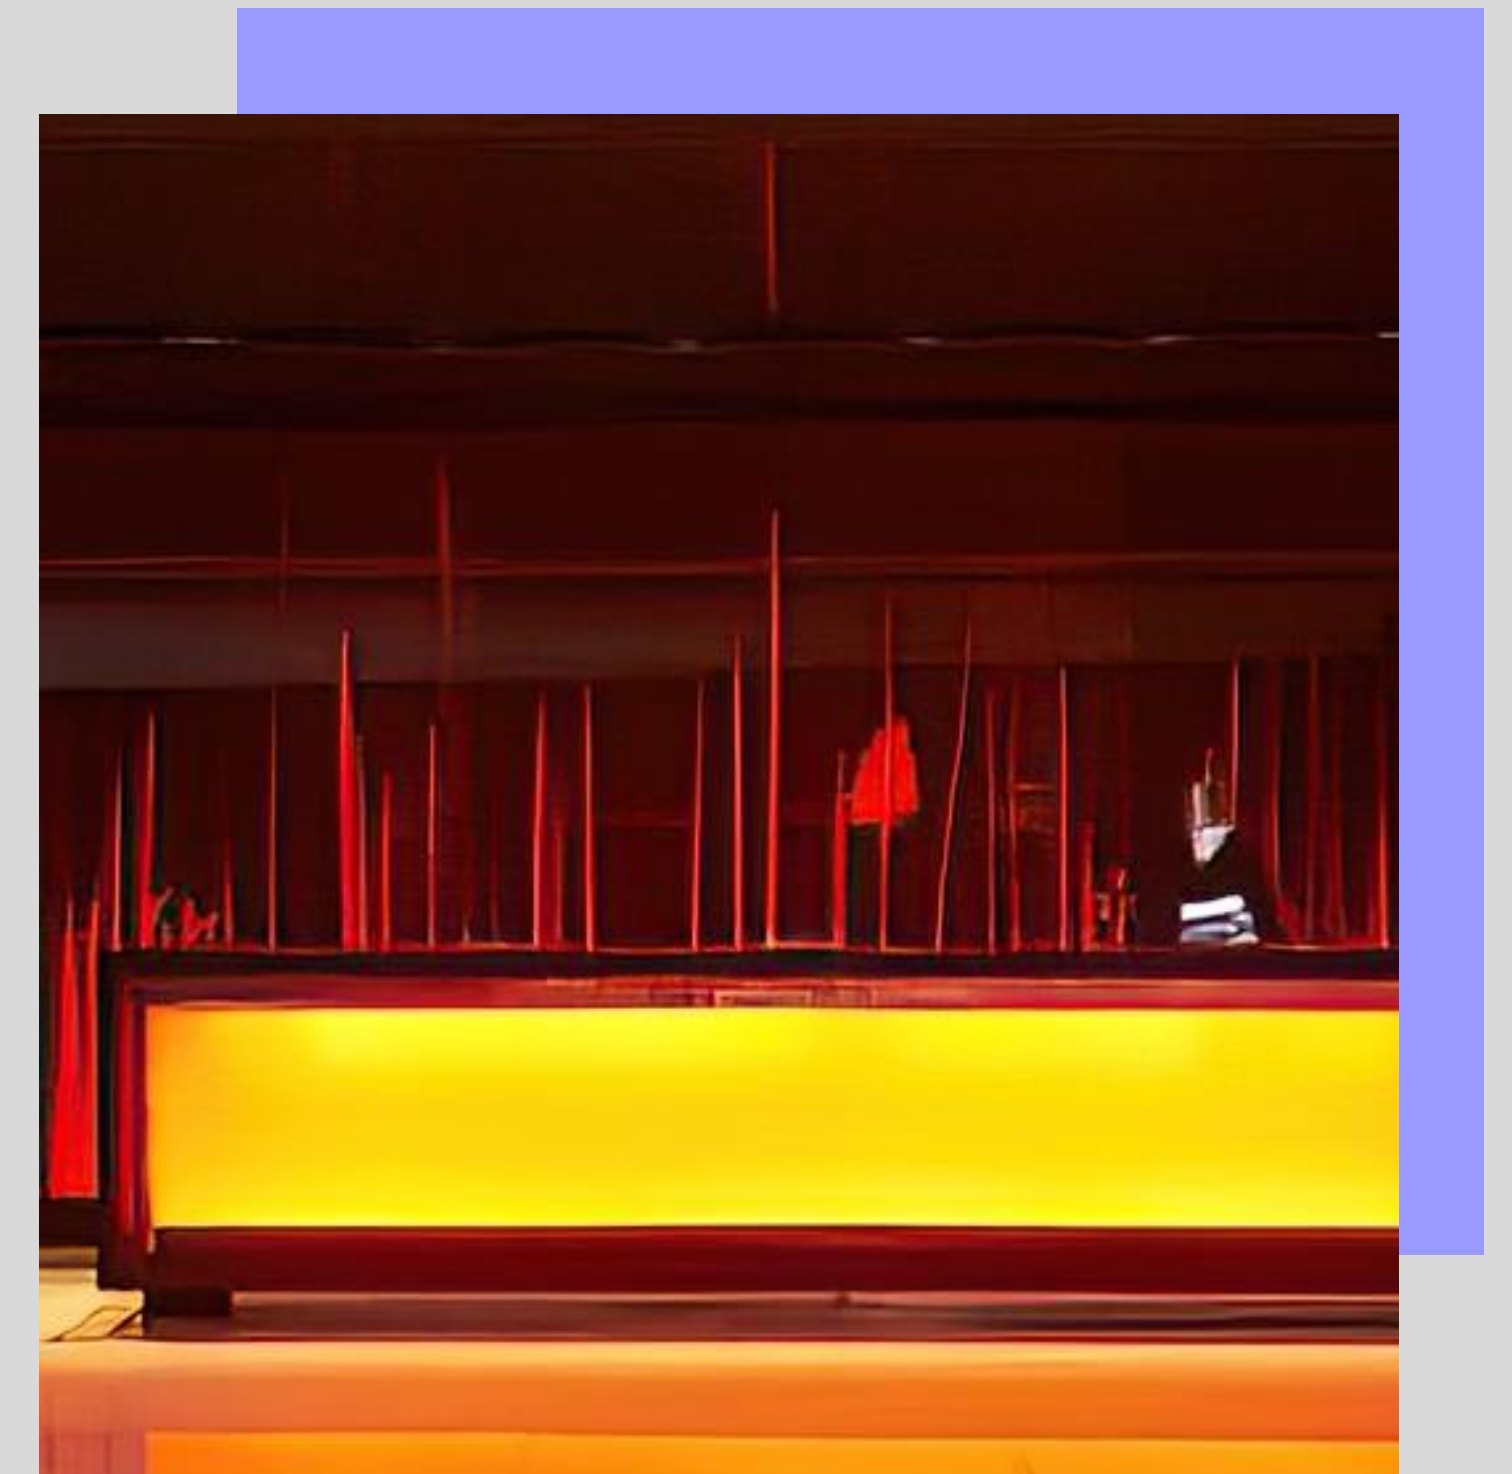

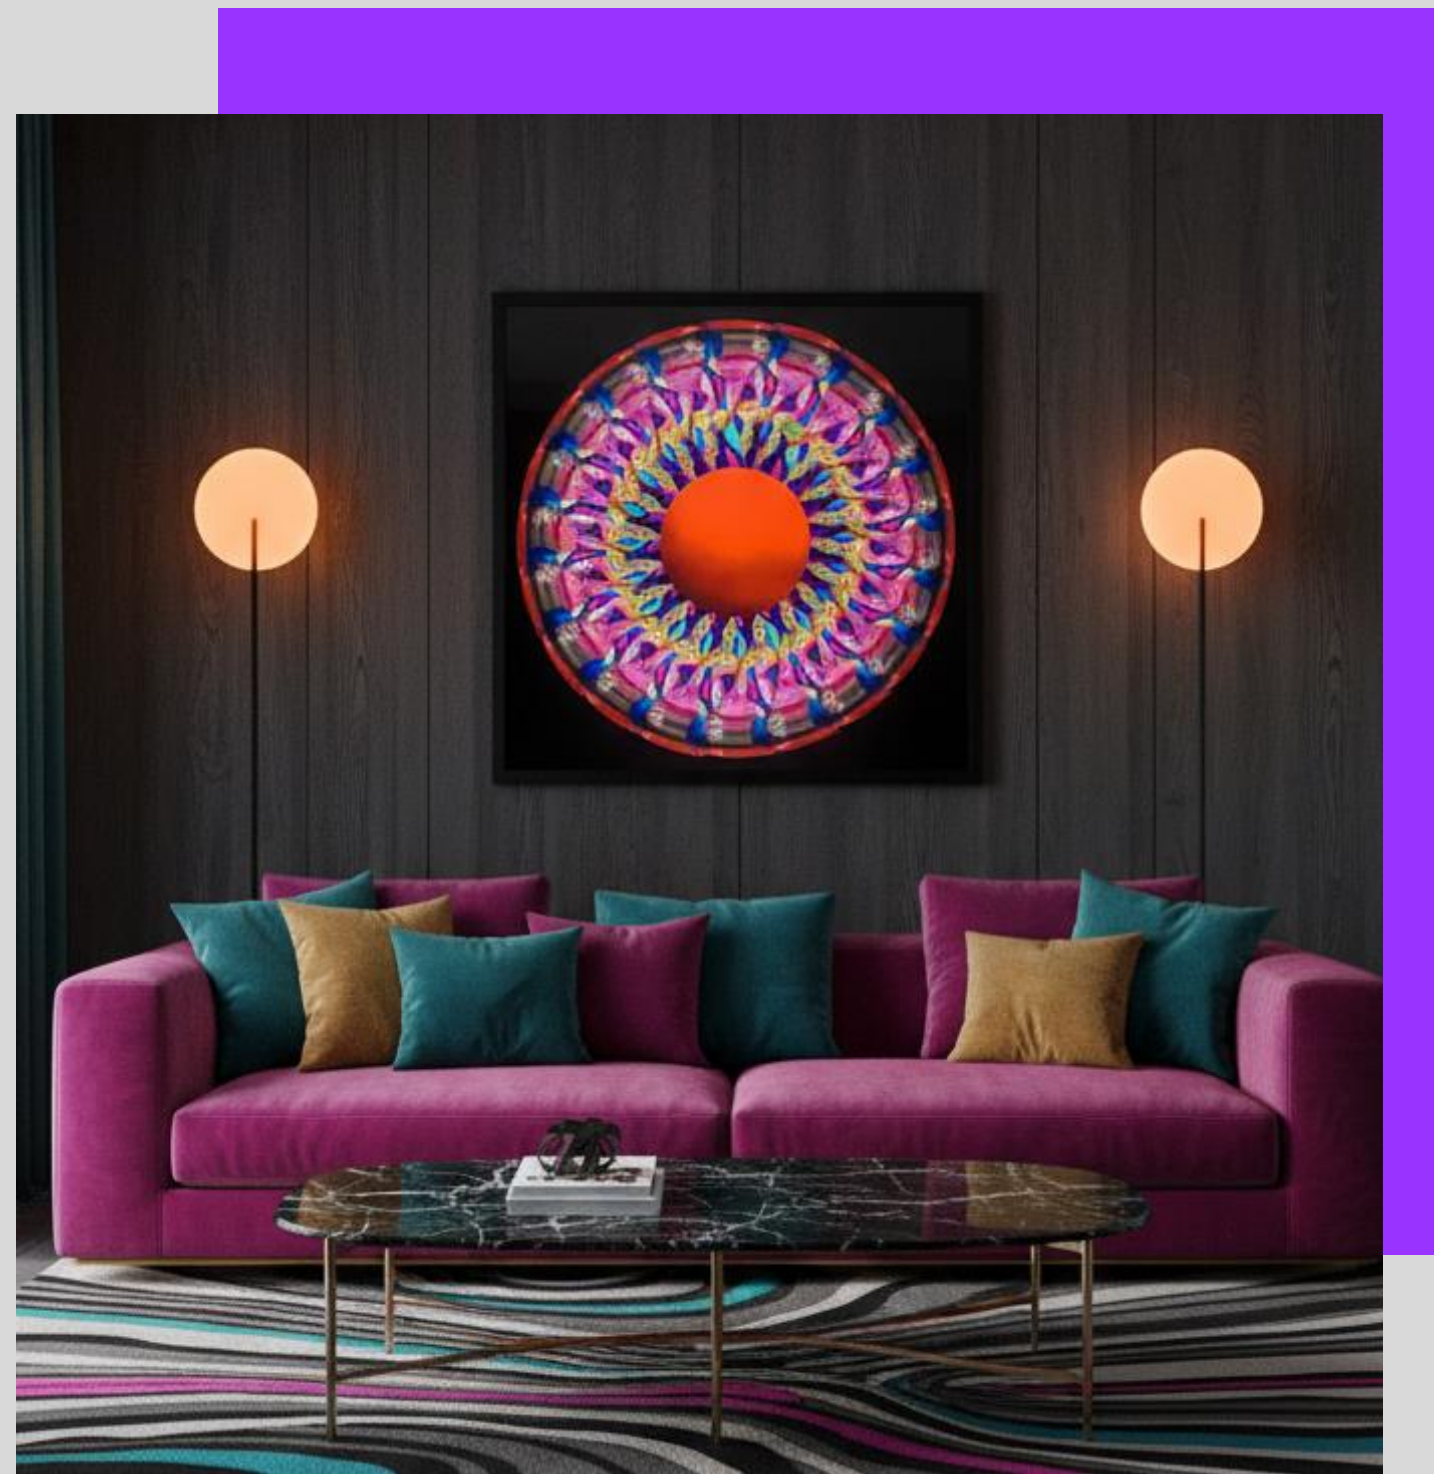

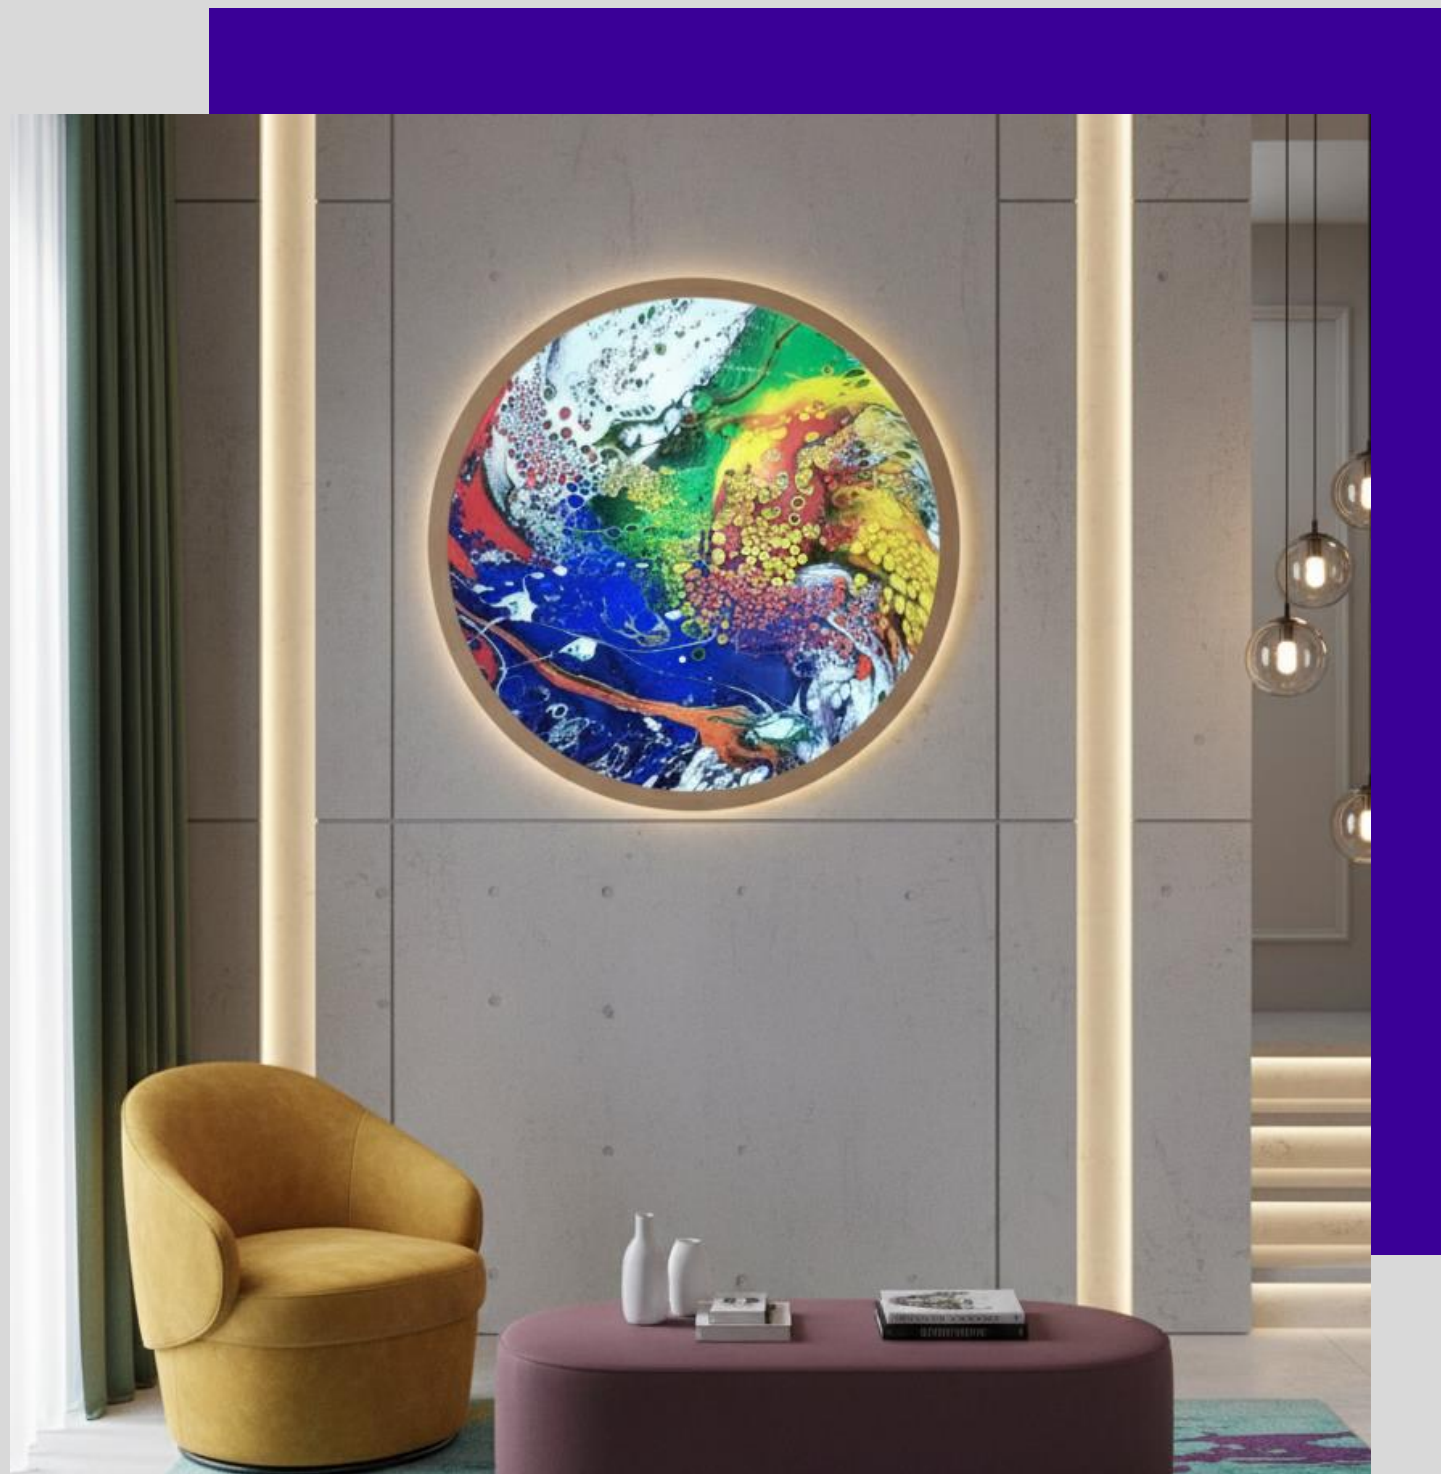

Wall Paper Prints

Any image or pattern can be printed with our UV printing system on wall papers of any length and up to 130 cm width. The print does not damage the features of the wallpaper and it can be wiped. It is especially practical for stores, cafes, and communal hospitality spaces.

LIGHTBOX ARTWORK PRODUCTION

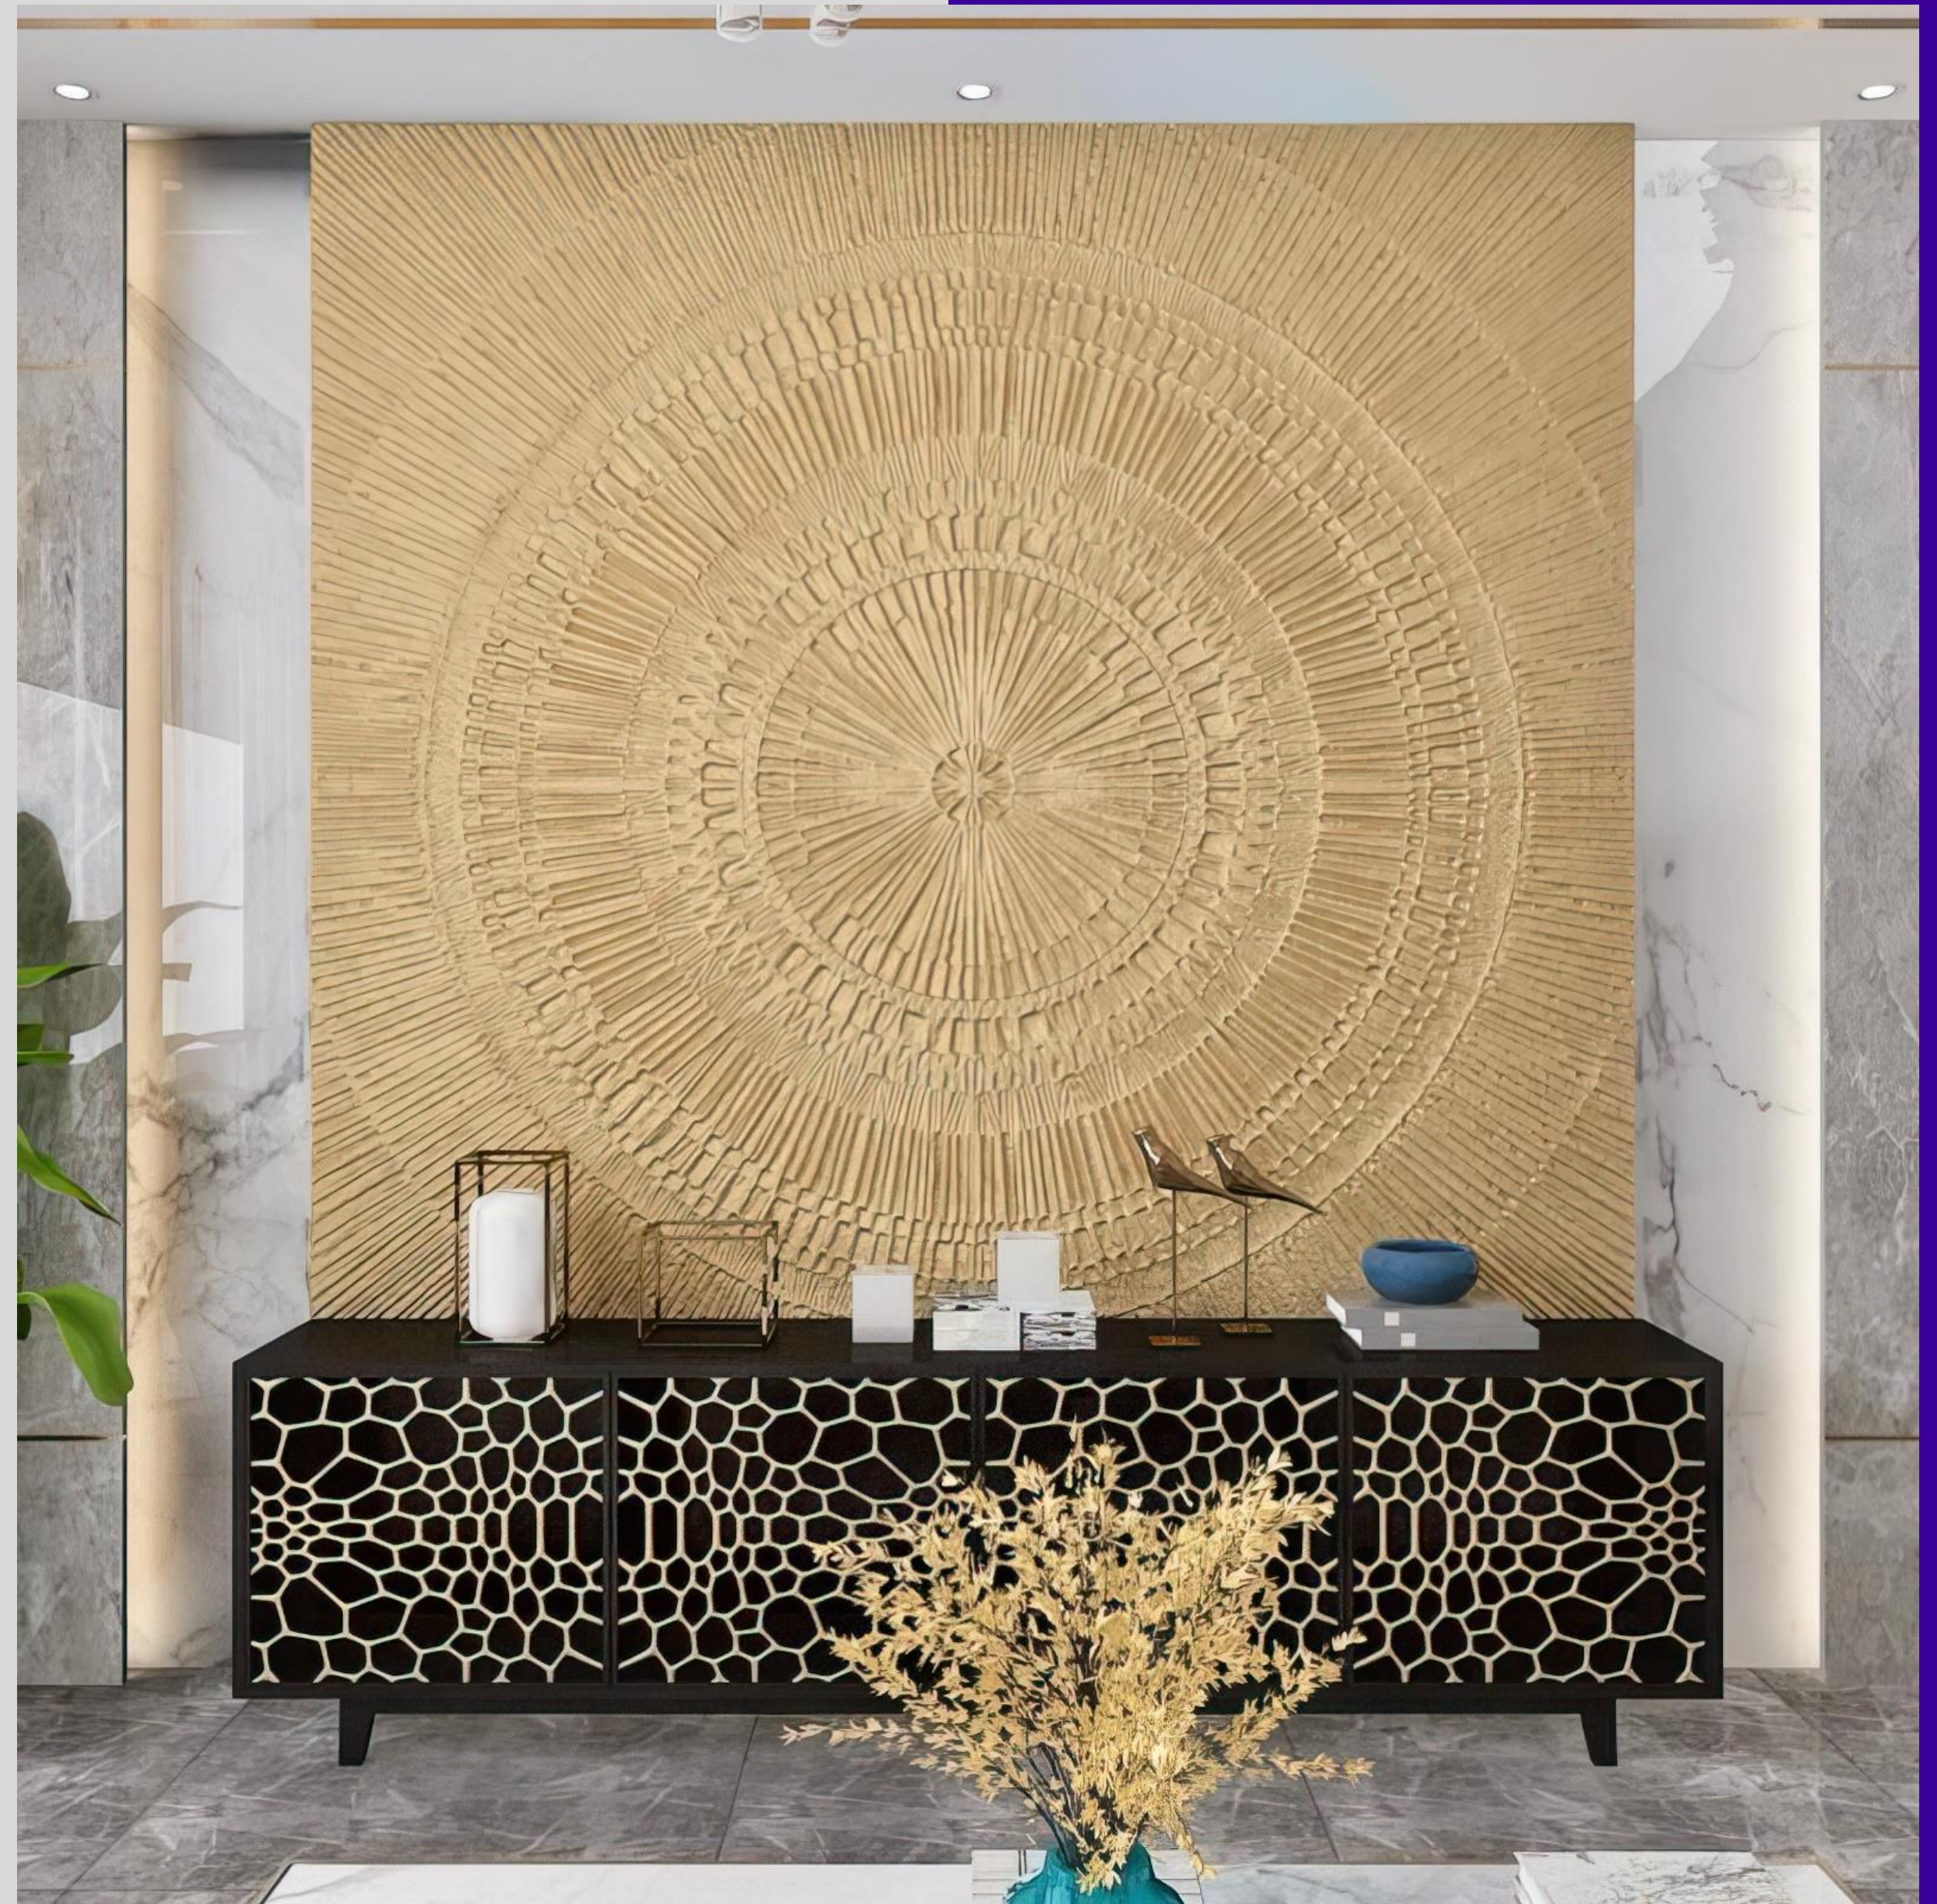

The light boxes which we can prepare at any size and variety of shapes you want, will provide new horizons and inspirations for your environment. They are not just an effective advertisement tool, but also elevate artistic works to new dimensions. We can produce both Duratrans Flex and special textile light sensitive materials.

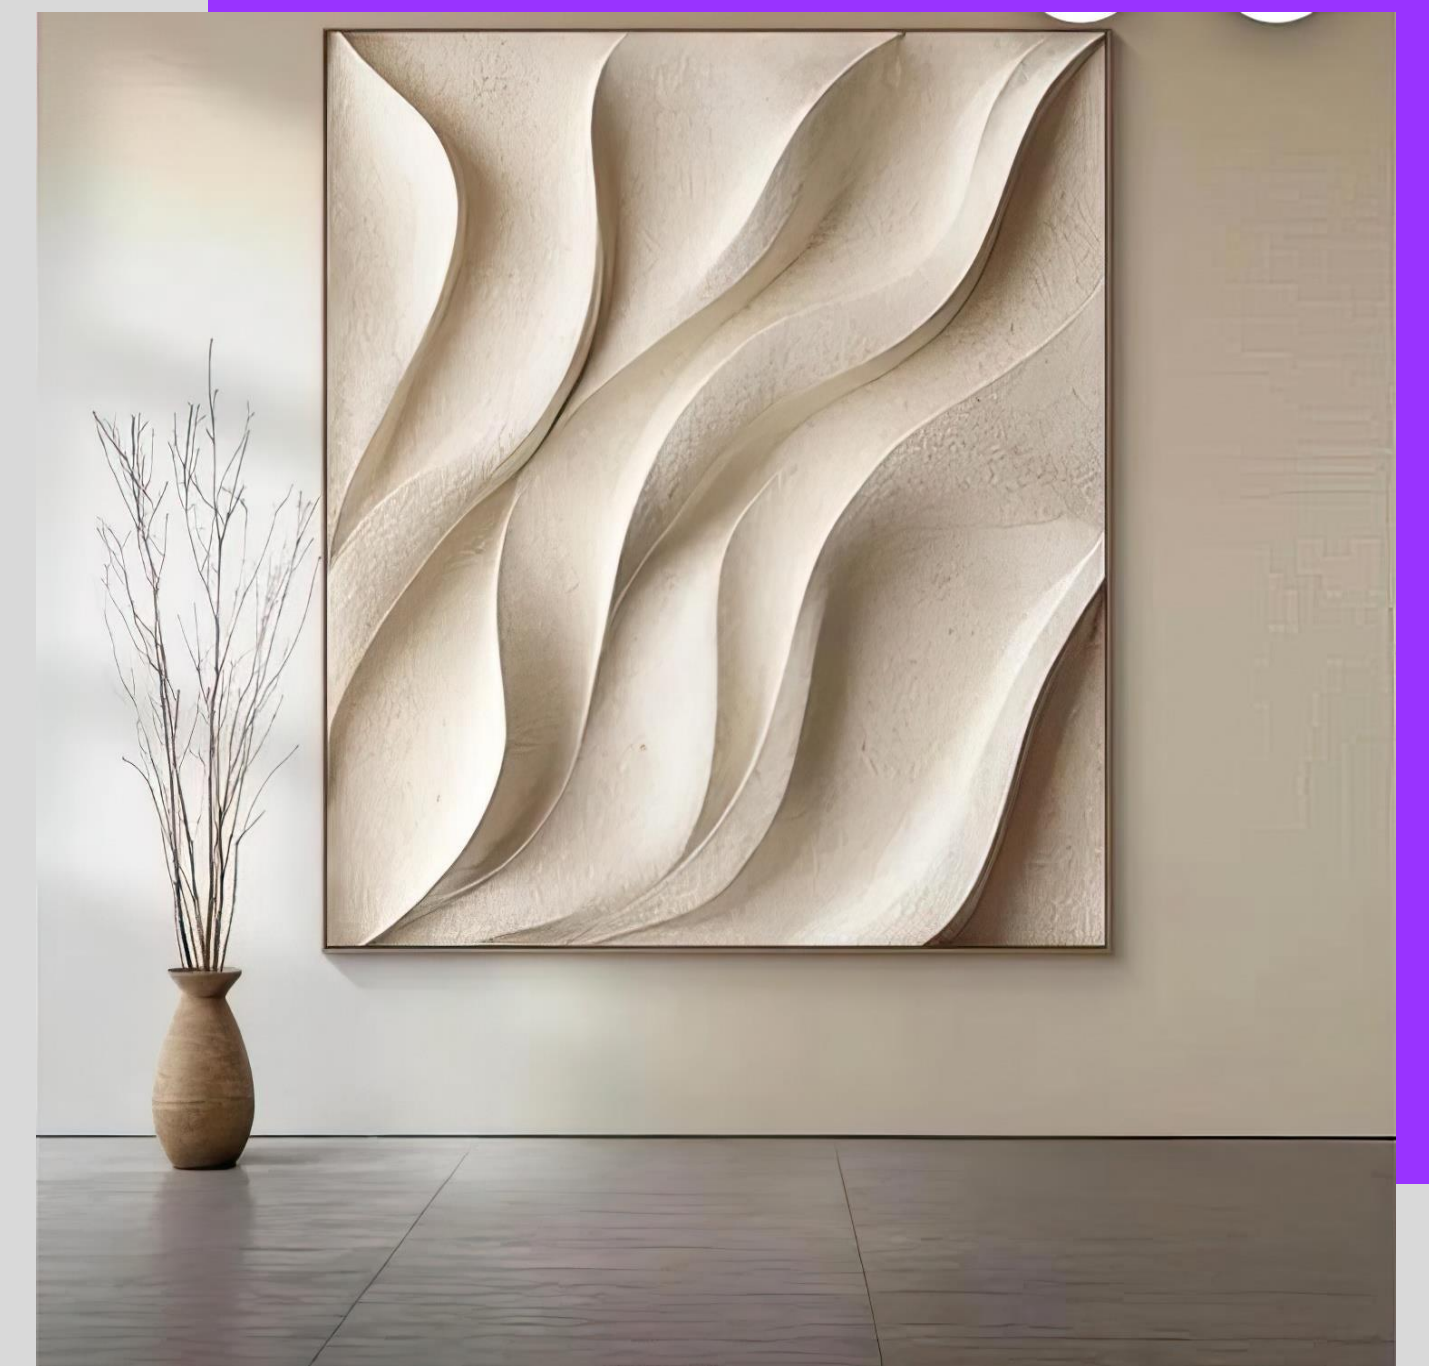

SOLID WOOD AND MDF ARTWORK PRODUCTION

We bring together the natural elegance of solid wood and the versatility of MDF to create unique artworks. Solid wood adds warmth and timeless beauty, while MDF allows precision and modern creativity.

Through skilled craftsmanship, we transform these materials into expressive pieces that blend functionality with art. Each design becomes more than an object—it turns into a meaningful artistic experience that enriches living spaces.

SOLID WOOD AND MDF ARTWORK PRODUCTION

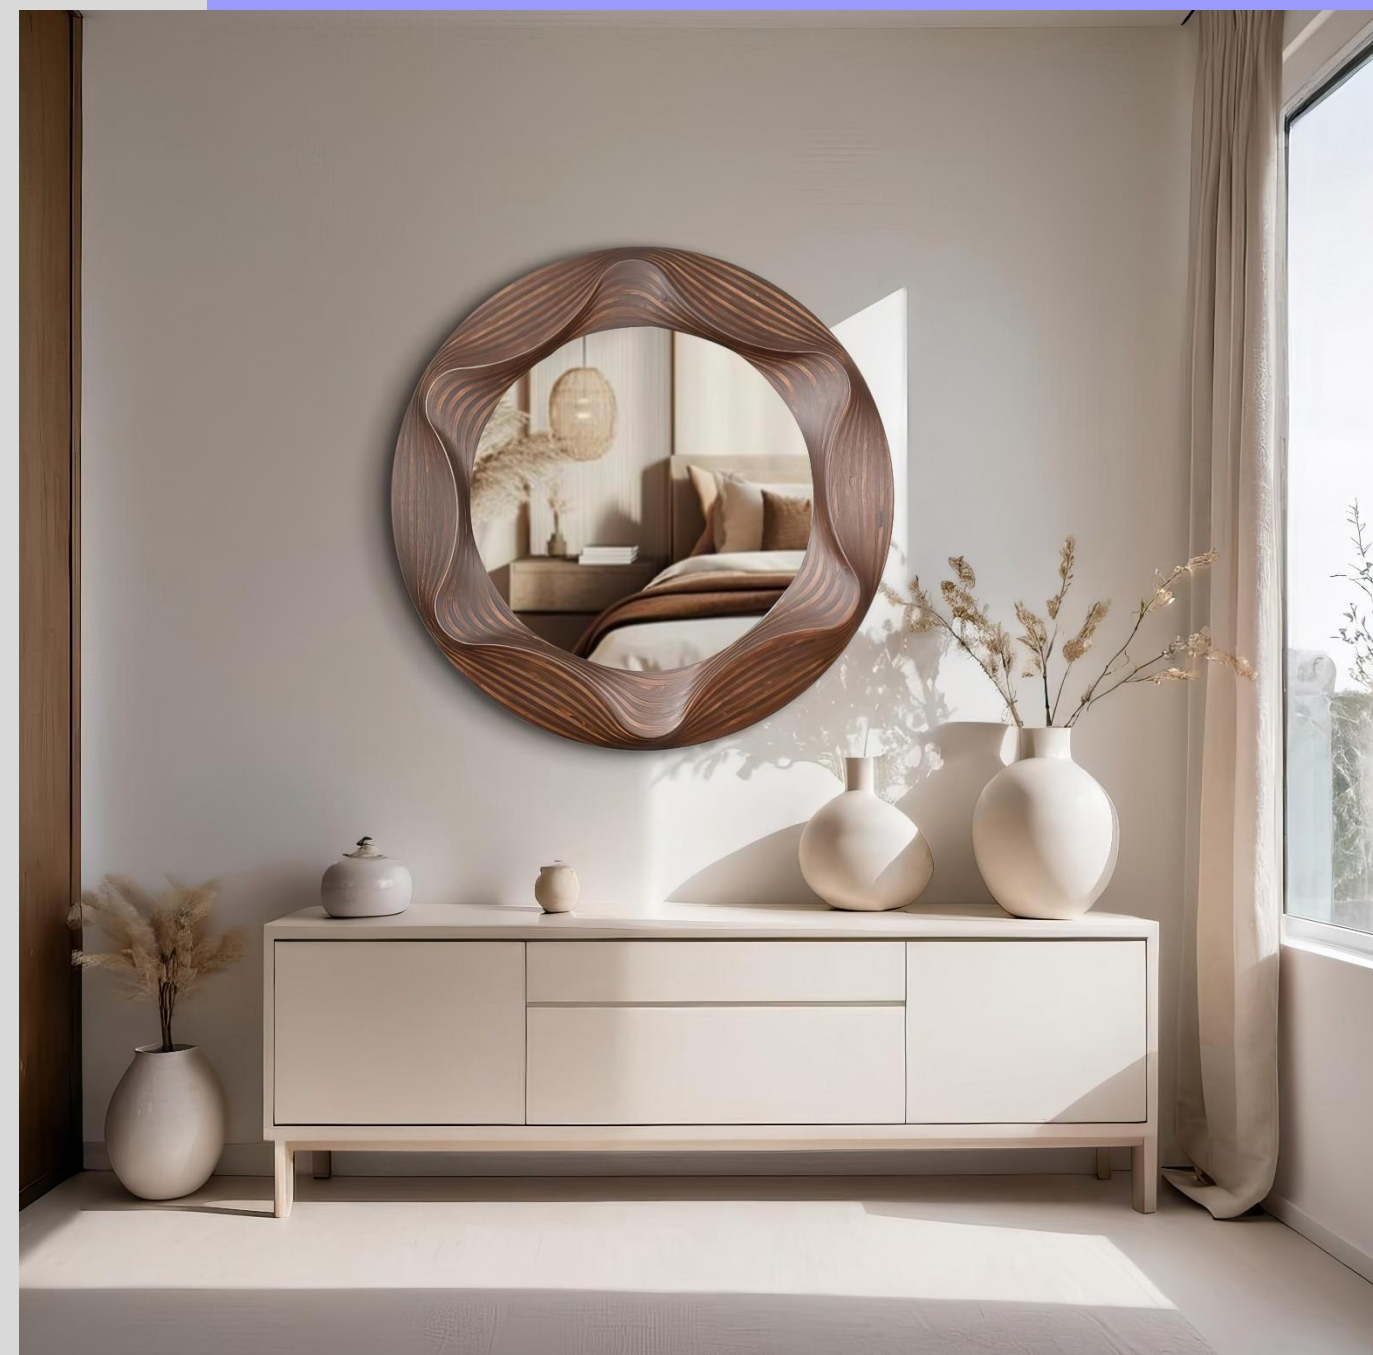

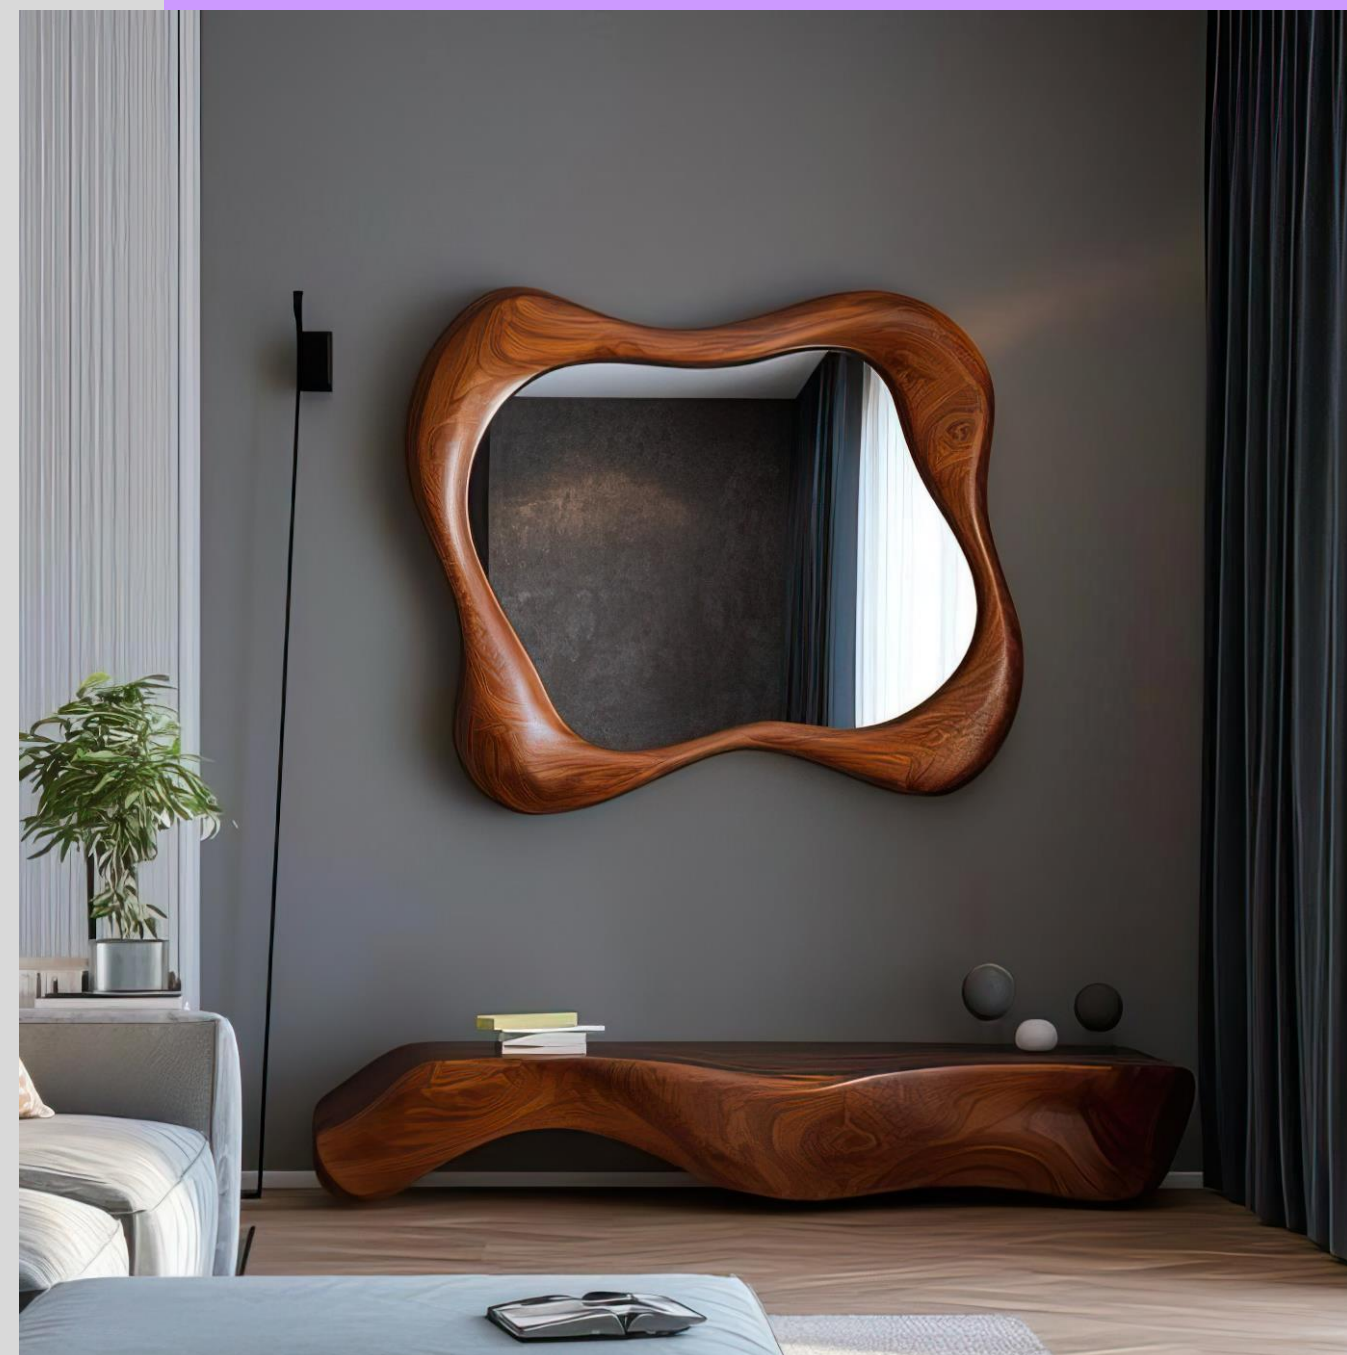

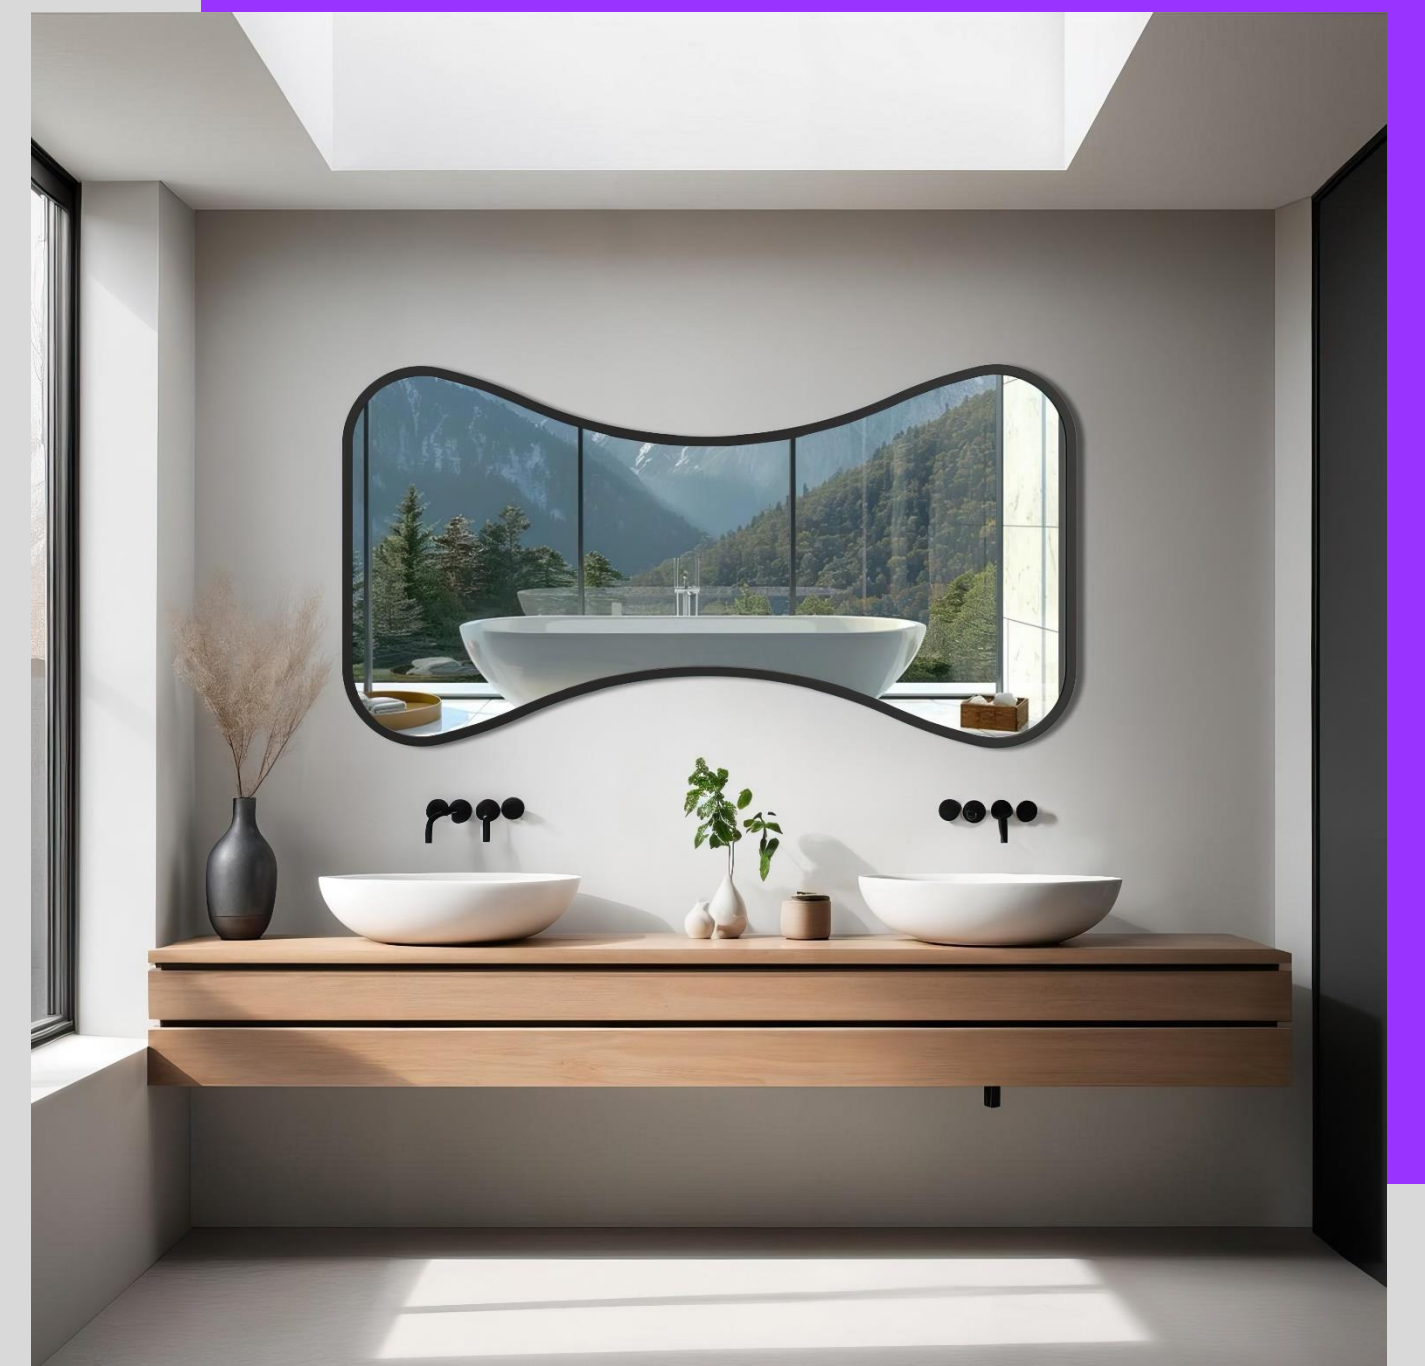

MIRROR ARTWORK PRODUCTION

We transform mirrors into striking works of art that go far beyond functionality. By combining reflective surfaces with creative design, each piece becomes both a practical element and an artistic statement.

Through innovative techniques and craftsmanship, mirrors are reimagined as expressive forms that play with light, space, and perception. The result is artwork that not only enhances interiors but also creates a unique visual and emotional experience.

MIRROR ARTWORK PRODUCTION

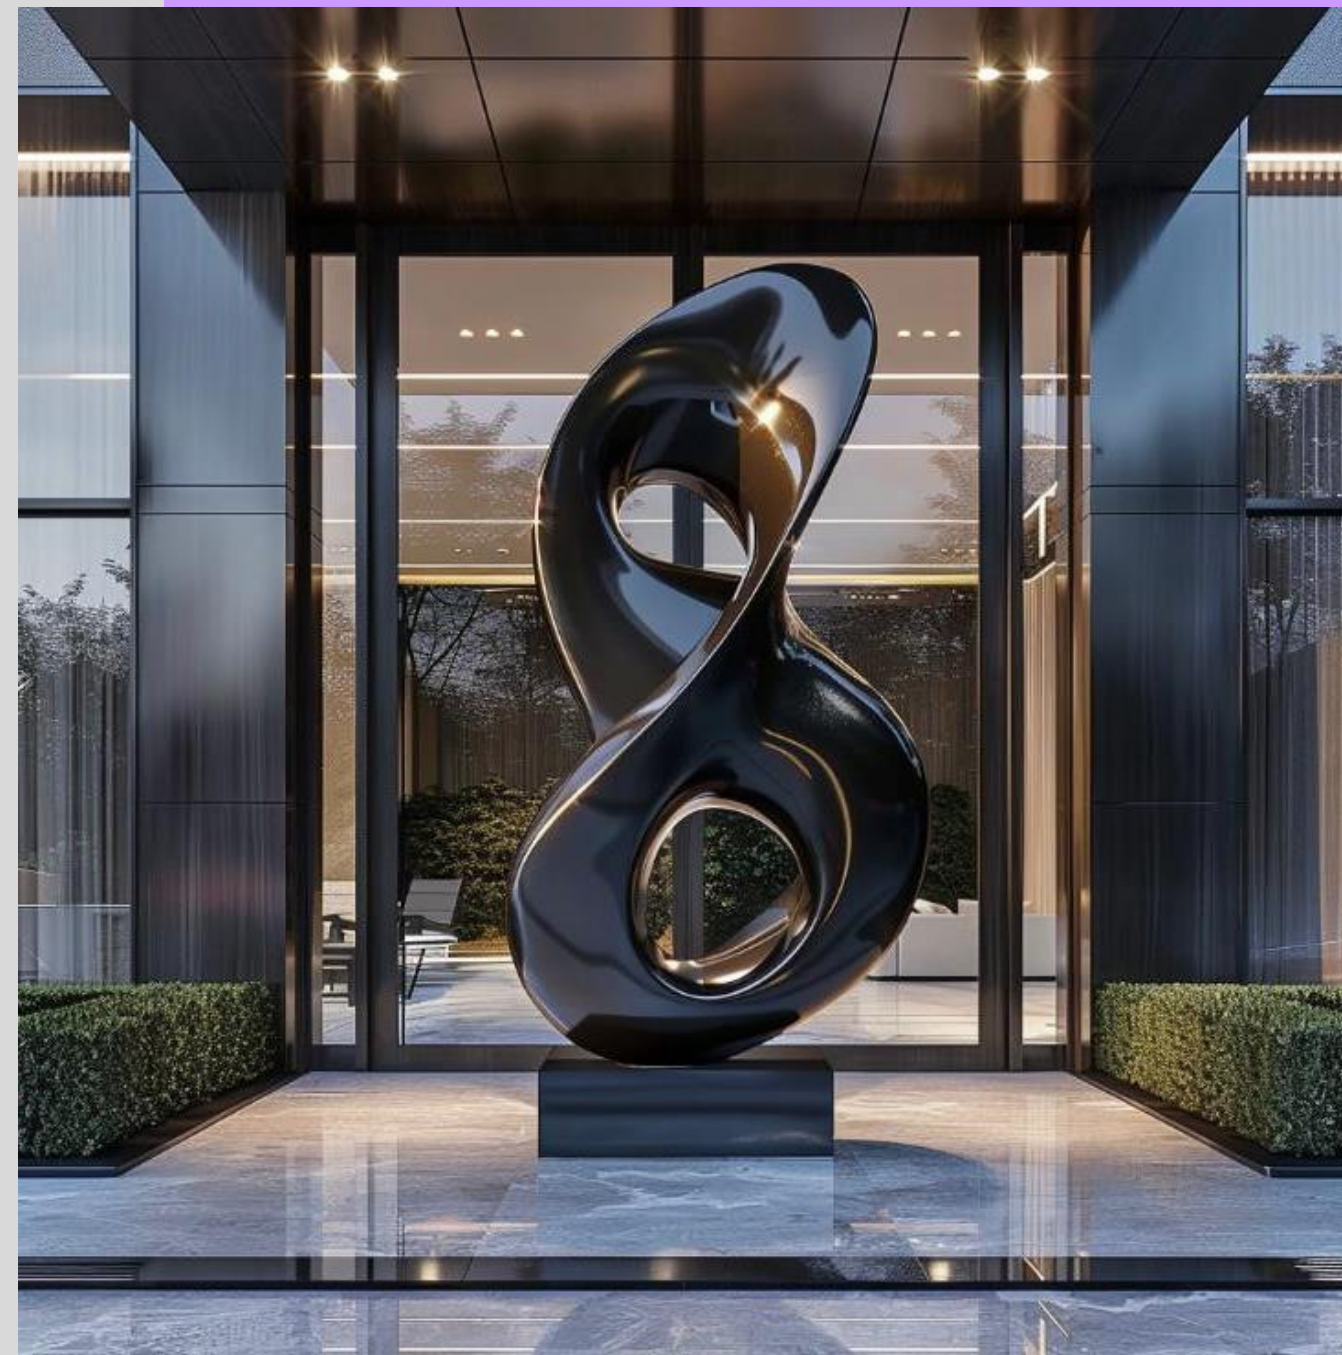

3D FIBERGLASS SCULPTURE PRODUCTION

We specialize in creating three-dimensional fiberglass sculptures that unite durability with artistic expression. Fiberglass allows us to craft lightweight yet strong forms, opening endless possibilities for scale, detail, and creativity.

Each sculpture is shaped through innovative production techniques and refined craftsmanship, transforming ideas into tangible works of art. From modern abstractions to intricate designs, our fiberglass creations bring powerful visual impact and a lasting presence to any space.

3D FIBERGLASS SCULPTURE PRODUCTION

METAL ARTWORK PRODUCTION

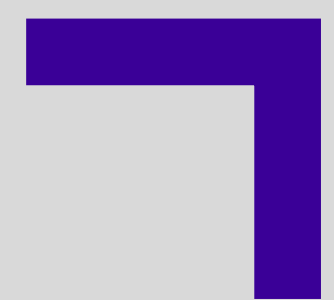

We craft distinctive artworks by harnessing the strength, versatility, and timeless appeal of metal. Through cutting, shaping, and finishing techniques, raw metal is transformed into expressive forms that blend durability with refined artistry.

Each piece reflects a balance of power and elegance—whether abstract or functional, minimalist or intricate. Our metal artworks are designed to enhance spaces with a bold visual presence and enduring character, turning solid material into meaningful artistic expression.

METAL ARTWORK PRODUCTION

CASE STUDIES

Hotels

WESTMINISTER HOTEL

London

1021 Rooms and general areas,
Plexi Sandwich prints and
applications on wardrobe doors
and other areas.

At this prestigious and one of the largest hotel projects in the UK, we produced glass laminated prints onto wardrobe doors. The project made the most of it's budget by combining the functionality of the wardrobe units with stunning artworks.

The project total was 10,000 sqm. including adorning the general areas of the hotel with unique artwork and immaculate production. All works have been produced, crated and shipped from Turkey with installation manuals for field personnel.

ÇIRAĞAN HOTEL KEMPINSKI

Istanbul

313 Rooms

Fine Art prints with special wooden
glass frames, total of 2522 pieces.

In the lobby, restaurant and rooms
of the hotel, we prepared the visual
design and production according to
the concept of the hotel, produced
the special prints of the works and
produced the special frames we
designed for the hotel, and carried
out the application works.

HOLMES HOTEL

London

118 Rooms

Fine Art canvas prints with special
varnish, stretched on bed head MDF.

We designed and produced
canvas prints which were
stretched to separate MDF
pieces and installed as
bedheads for this concept
hotel in London.

The canvases were
covered with a special
varnish to protect them
from outside harms.

SHERATON HOTEL

Levent / Istanbul

248 Rooms

Fine Art and Canvas prints, Wooden floater frame and circle tempered glass print inside design special frame.

At this 5-star hotel in one of the important financial districts of Istanbul, our creative team custom designed artworks to match the curtain and carpet tones and shapes.

We used tempered inside glass face mount C-Print with a special empty frame designed and produced at our workshop in most rooms. We used textured fine art C-Print paper with floating frames on the shelves. In some rooms we printed, stretched and framed canvas prints.

All installation was performed by our team for this 300-room project.

HILTON HOTEL

Bursa

187 Rooms

C-Print face mounted on tempered
glass with wet surface protection.

We supplied all design and
production of artworks for the
biggest hotel in the city of Bursa.

In the rooms, we printed and
framed the artworks in
complimentary frames. In the
bathrooms, we face-mounted the
C-prints to 3 mm. tempered glass
and sealed them with a special
frame that is not affected by
water or humidity.

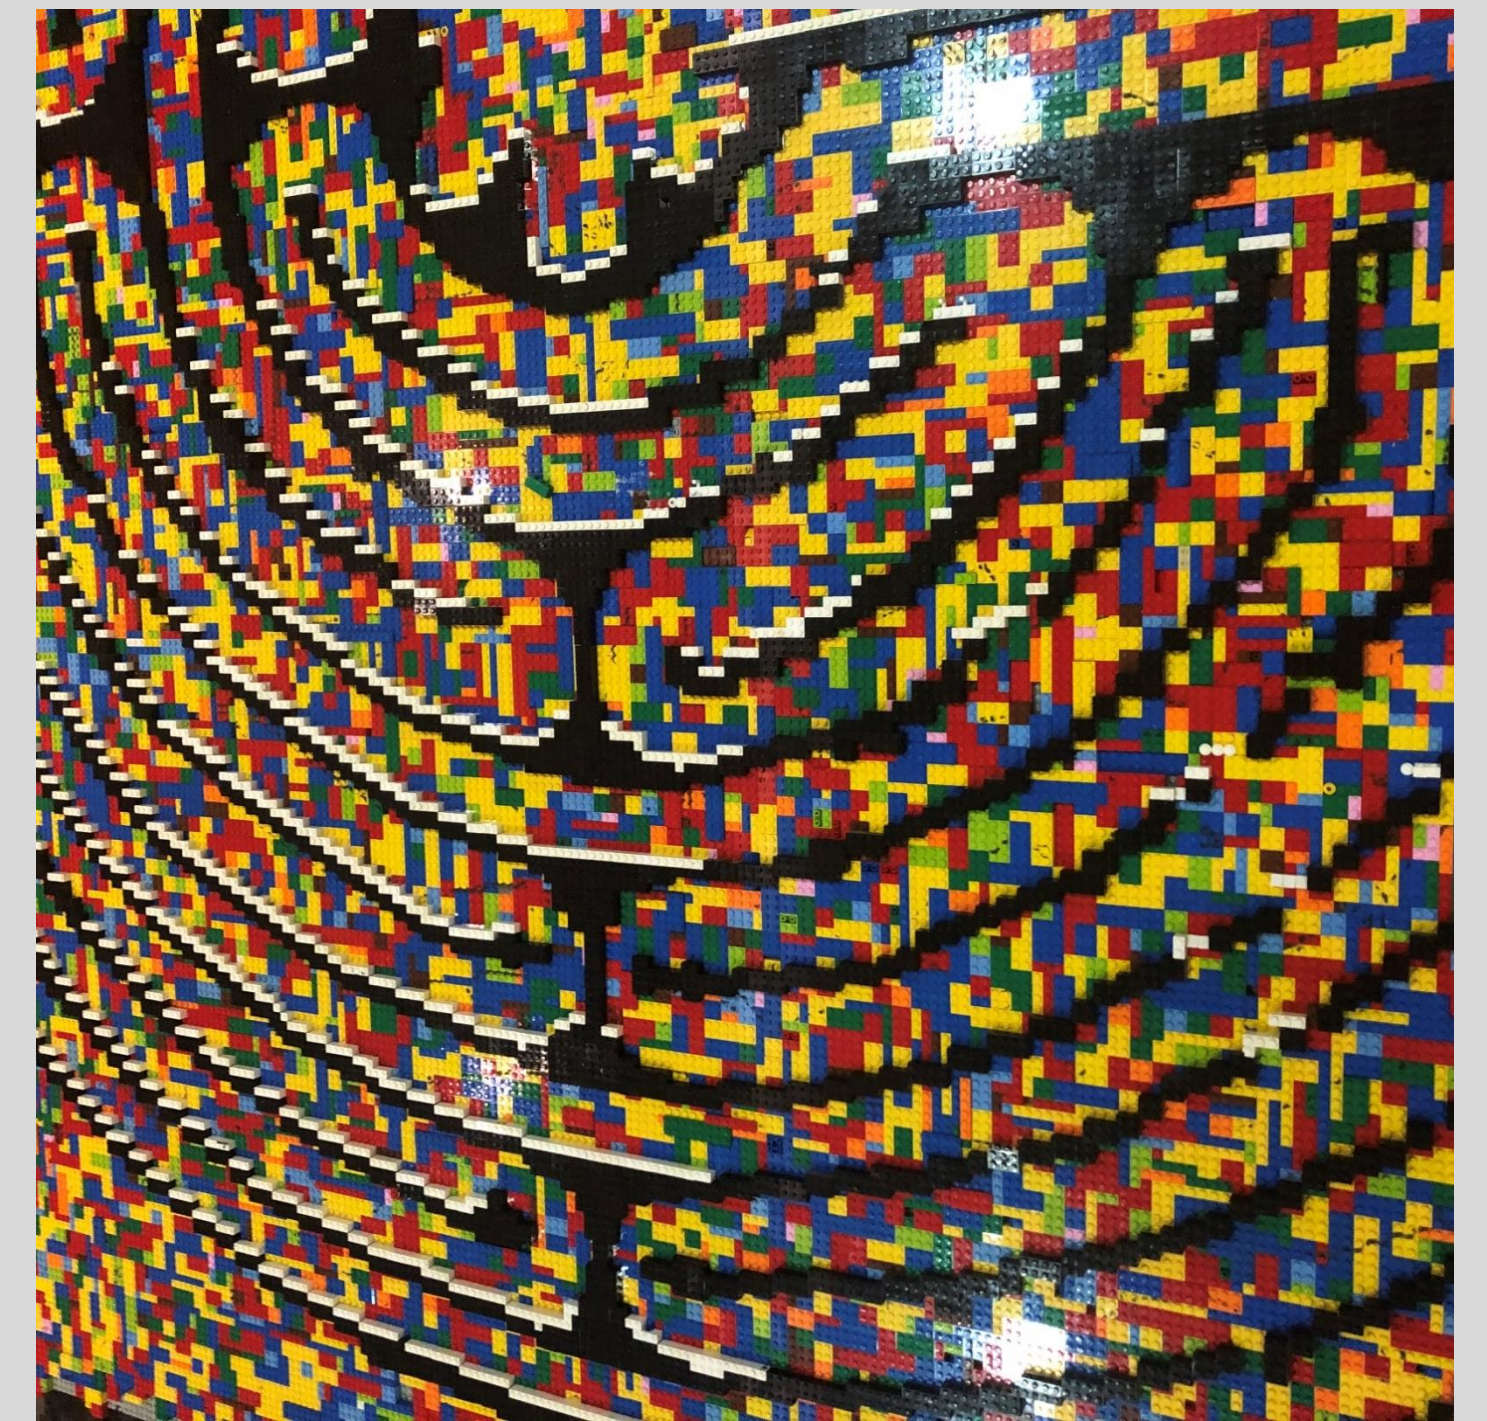

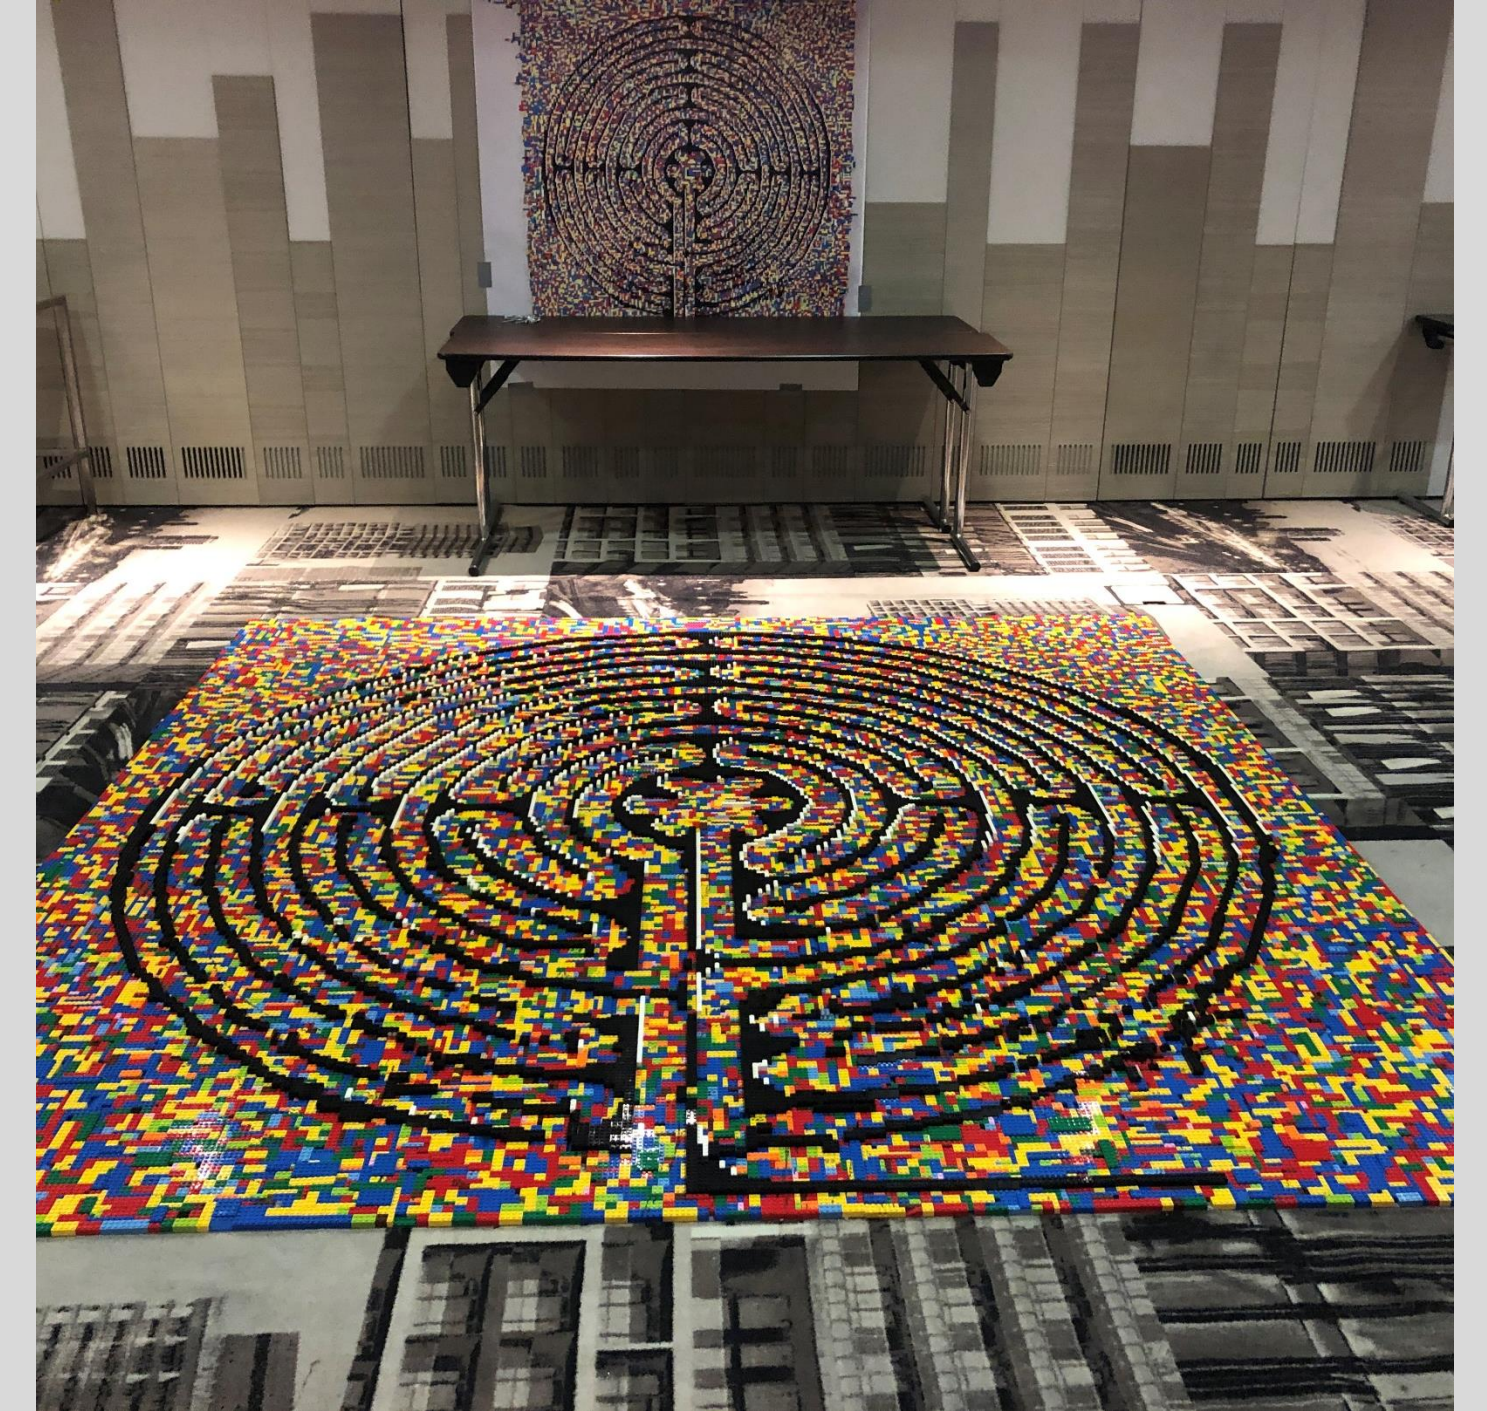

LE MERIDIEN HOTEL

Etiler / Istanbul

259 Rooms and Lobby
Lego artwork implementation and
printed framed artworks in rooms,
general areas.

We have carried out two different
artistic works for the lobby area of
Le Meridien Etiler hotel. One of them
is the reproduction and installation
of a LEGO artwork by Chinese artist
An Xiaotong.

The other work involves printing
and framing Istanbul photographs
by our renowned artist
A. Halim Kulaksiz.

ADAHAN DECAMONDO PERA HOTEL

Istanbul

40 Rooms

Fine Art prints with frames.

We have provided the printing,
framing, and installation services
for all the artworks belonging to
Adahan DeCamondo Pera,
Autograph Collection, located in
Şişhane.

MOVENPICK HOTEL (1)

Pendik / Istanbul

294 Rooms

C-Print with Artbox frames,
Plexi Sandwich prints in rooms and
general areas.

We designed old Istanbul
gravures and made C-prints
mounted as DIASEC for the
hotel rooms. In some rooms we
used FUJIFILM textured fine art
C-Print paper and framed
images in pop-art style.

We printed and applied
varnished canvas prints on
shaft doors in the corridors.

MOVENPICK HOTEL (2)

Pendik / Istanbul

Restaurant

1600 pieces of glass mosaic printed
artwork with washed metal frame.

C&C Dream Artworks Factory graphic
design team created and executed this
project from start to finish.

We produced and installed a
one-of-a-kind glass mosaic in the
main restaurant, which consist of 1600 -
5x5 cm. glass mosaics, all manually
mounted with an acid free, ultra clear
adhesive to the surface of the image

(as seen on the right).

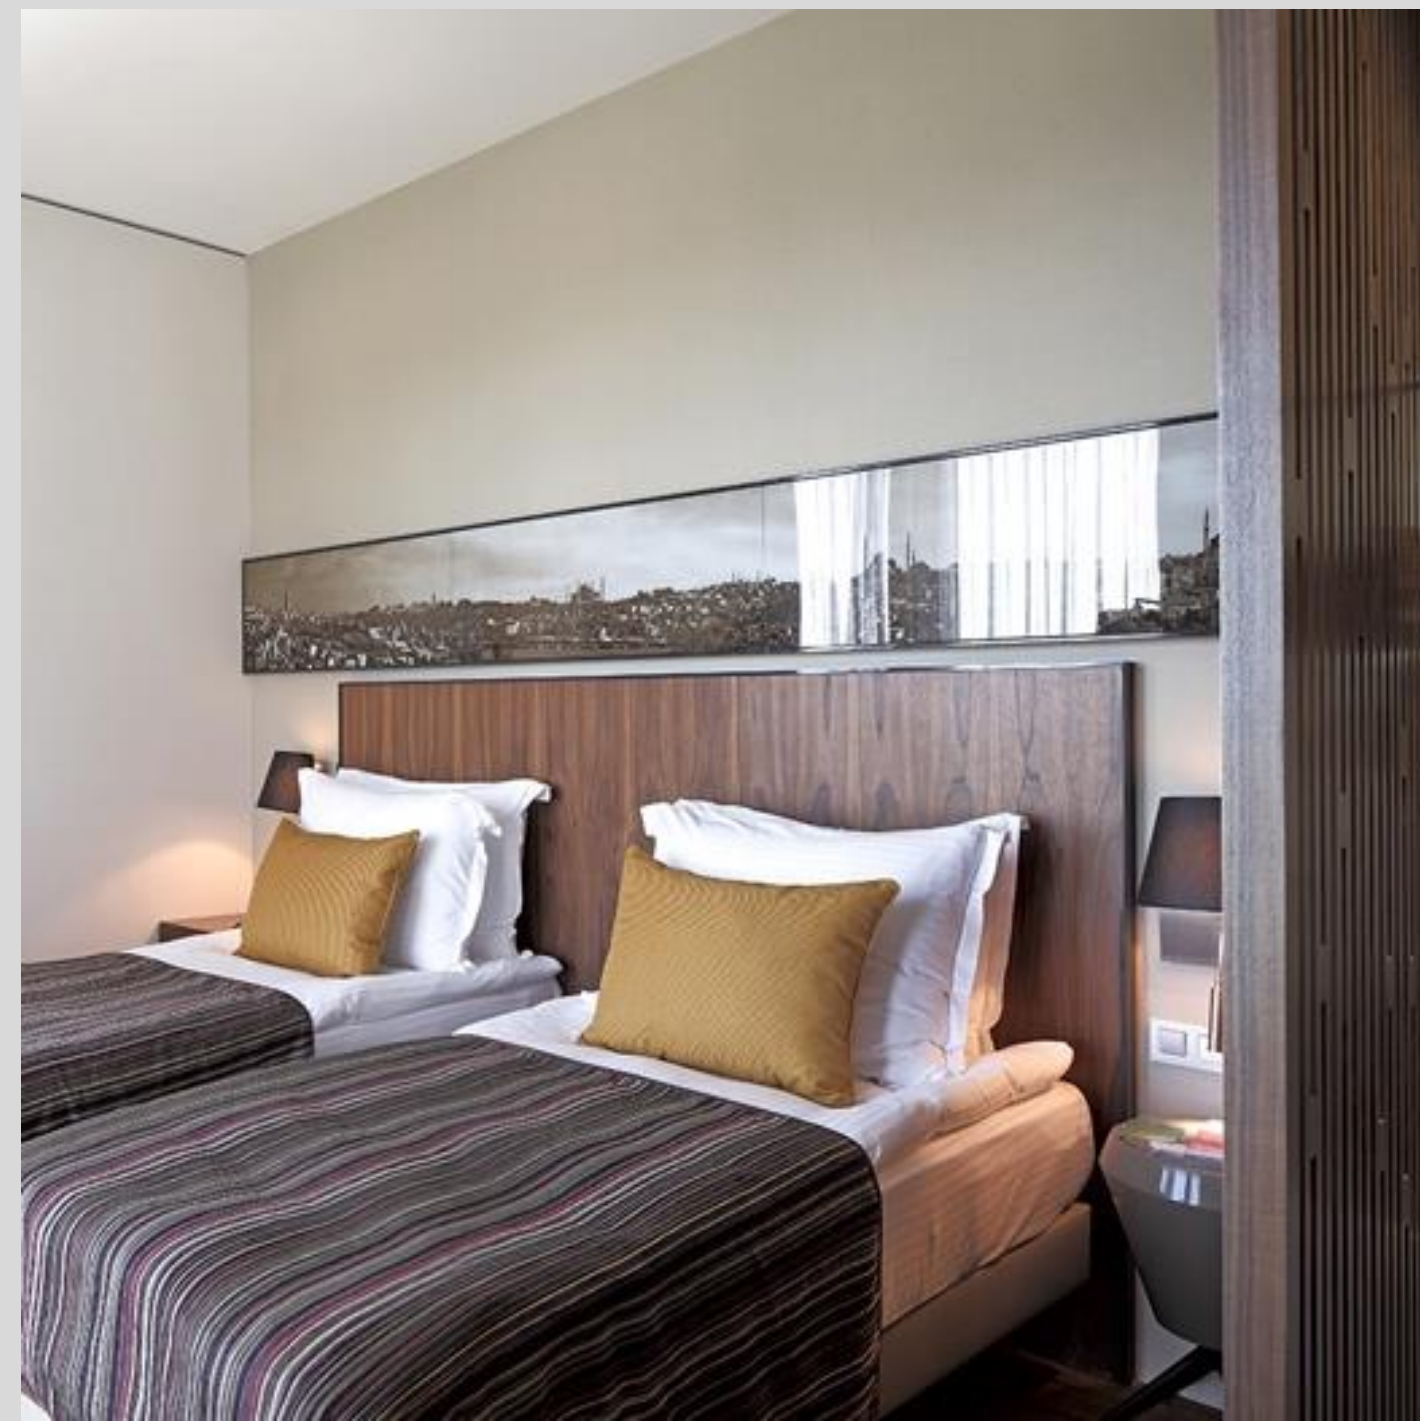

RADISSON BLUE HOTEL

Istanbul

133 Rooms

C-Print face mounted to tempered
glass as bed head decoration.

For this project, we have used our own
photographic archives of Istanbul
Silhouettes Composed of A. Halim Kulaksız. The
artwork was C-Print and
mounted inside 3mm. tempered glass as
part of the bedhead. All installation was
performed by C&C Dream Artworks Factory
personnel.

LEVNI HOTEL

Fatih / Istanbul

55 Rooms

C-Print face mounted to tempered
glass as bed head decoration.

For this 55-room boutique hotel in
oldtown, Istanbul, we used our own C&C
Dream Artworks Factory Istanbul
photography archive.

The prints were face mounted to
4 mm. tempered glass and served as
bedheads with views of Istanbul of
A. Halim Kulaksız archive.

This dual usage of bedhead and artwork for
the rooms is a great money saving device,
as well as creating an enchanting and
reminiscent atmosphere for guests.

REGNUM BANYA HOTEL

Bulgaria

30 Rooms

C-Print with frames in rooms,
Plexi Sandwich prints in
general areas.

A new, 30 room boutique-style thermal hotel located at ulitsa "Koneshica" Banya, Bulgaria. We have used the artworks of one of our contracted artist and they were reproduced in C-Print, framed in NON-GLARE glass and used as bedheads. Moreover, we have produced approximately 20 DIASEC artworks (plexiglass sandwich prints) in the general areas and corridors.

ALIEE HOTEL

Istanbul

122 Rooms

Fine Art prints with special
wooden frames in rooms.

122 uniquely designed keys spread across four heritage buildings: Foundry, Casthouse, Atelier, and a converted Turkish bath called Heritage Villa.

Opened in mid-2025, Aliée Istanbul joins the revitalised Tersane İstanbul district on the Golden

Horn as part of the Paris Society Collection portfolio under the concept "House of Curious

Minds. Located at Haliç with a private waterfront and easy access via ferry, tram, metro, or even a

boat drop-off. We have produced special wooden frames where original engravings were elevated

inside the glass frame as if they float. Also We

have made reproductions of famous painters owned by the hotel and produced special artwork

fine art prints with frames.
